STATUS REPORT

Oneida Community Wells

CIP # 15-002 - Oneida Community Wells

Project Description:
The project has three primary components: a Pumphouse, Water Main Extension, and new high capacity wells. These components are needed to address identified deficiencies in the water system noted in the *Master Plan for the Oneida Community Water System* prepared by Indian Health Service (IHS).

Current Status:
- New wells have been installed.
- The pumphouse and water main extension are currently being designed by Indian Health Service (IHS).
  - ◊ After a tour of a similar facility, it has been decided to revise the design to provide better functionality.
- Geotechnical field work complete, currently analyzing data collected.

Schedule:
Approvals - complete.
Design - IHS anticipates completion of design in fall 2023.
Bidding - 2023
Construction - 2024-2025
Substantial Completion - 2025
