- For the record: Tina Danforth said I approve because these are primarily tribal employees, its a holiday weekend, people are denied vacation time during this time and they should be given same consideration as other enterprises such as gaming, we just approved a whole bunch of exceptions for other areas of the tribe, and I think this is a critical area—enterprise revenue generating area. Other area we have been approving requests were not revenue generating. So I will take an exception to this request

- For the record: Tina Danforth said I abstained because well obviously I support tribal employment. I am also concerned about budgetary considerations and I don't have enough information to say whether or not this is a true need going into the budget cycle where we have to make some cuts most likely in the employment area. I would like to see true numbers as to how many people are staffed solely at the casino facilities. To me, it would be helpful if we had a better picture, how many per shift and per facility, how many are non-gaming security and what it the standard out there for staffing in this area, giving the size of the facilities.
