Special Meeting to discuss location of proposed maintainance building. Discussed 3 locations; Northeast corener of E & EE corener of H and Ranch Road and old dump site.

Chas Wheelock thought the Agriculture program had a 21 month lease. on the H and Ranch road site. Was concerned that he was not even informed that the Land Committee was thinking of a different use with not consulting with him.

Discussed pros and cons for the different sites:

E & EE: has access to water and passes perc test-could be useable within alittle time. Probably a better location for a firestation and amergency services. About 2 acres is size.

H & Ranch: no water, cannot hook up to the lagoon system, needs fill, larger piece of land available for future growth

Dump site: has water, would need fill, about 13-15 acres insize  
May be time lag with paperwork

Loretta Metoxen moved to accept the first recommendation of the Land Commmittee for the H and Ranch Road site, for the Maintainance Building, second by Norbert Hill, 3 for, 2 opposed (MD, AC) motion carried.
