110-UPDATE ON HOTEL - Bruce King

Bruce stated all applications for funding have now been submitted to the appropriate agencies and we have tentative approval on 75% of these requests.

The Tribe has applied for an EDA Grant of \$500,000 for the water & sewer lines to the hotel project. The Tribe will have to commit another \$350,000 to get to the necessary funding level. A detailed engineering study has to be done for this water & sewer line project which will cost approximately \$40,000.00 and take about three (3) months. Foth & Van Dyke will be doing the work. The Tribe presently owes them \$4,000.00 on a study they did for us earlier. The budget was \$4,000.00, but the cost went up to \$9,000.00. Bruce requested a detailed accounting of the changes, but did not receive anything as of yet.

Bruce recommends that the Tribe set aside \$35,000 toward the payment of the engineering studies and we disburse \$4,000 immediately to cover expenses to date.

Mark moved to approve the recommendation. Gordon seconded. Motion carried.
