LIFEGUARD

I have always been around water. Ever since swim lessons I have been swimming. In middle school I was in swim club. I received my Lifeguard training at 15 and have worked at many different pools and summer camps teaching kids various skills in the water. I have lived in Ashwaubenon my entire life. In high school I played football for the Ashwaubenon Jaguars as a center and Guard. I am currently attending classes to be a Firefighter/EMT.

Since becoming a lifeguard, I have worked at a Boy Scout camp where I learned how to teach various water activities such as rowing, small boat sailing, canoeing and swimming. It is amazing to see how quickly kids can learn the skills and put them to use

My duties at Oneida Family Fitness are to keep patrons safe in the pool as they are swimming or taking classes in the water.

My mission here at Oneida Family Fitness is to keep the pool area a fun and safe environment, to teach children to be safe in and around our pool and any other pool or lake, and to help members get in shape and stay fit for years to come.
