EQUAL EMPLOYMENT OPPORTUNITY STATEMENT

The Oneida Nation does not discriminate on the basis of race, color, national origin, sex, religion, age or disability status in employment or the provision of services. However, individuals of Indian ancestry and Veterans will be given preference by law in initial employment or re-employment.

POSITION SUMMARY

Work with farmers and lease holders to develop new and/or update existing farm management plans that address natural resource concerns; provide information concerning Farm Bill conservation programs; and assist in the development of conservation contracts according to the NRCS Conservation Program Contracting Manual. Performs on-site inventory and evaluations; recommends and assists in conducting necessary preliminary surveys; and provides recommendations for feasible practices to solve resource concerns. Recommends practices to farmers which help control erosion and conserve soil and water. Evaluates the effects of land use alternatives on soil, water, plant, air and animal resources. Continuation of this position is contingent upon funding allocations.

DUTIES AND RESPONSIBILITIES:

1. Assist agricultural producers to develop farm management plans that address natural resource concerns.
2. Accelerate participant enrollment in USDA-NRCS Farm Bill conservation programs.
3. Operate a tractor with implements for planting and mowing of conservation practices and non-federal project hours.
4. Carries out a follow-up schedule for applying soil conservation practices in accordance with plan and contract schedules.
5. Gives technical guidance and assistance to cooperating landowners in making needed revisions to their conservation plans and contracts.
6. Conducts environmental education on natural resource issues, water quality, and general conservation. Attends Oneida Nation events to promote NRCS programs and activities. Collaborates with partnering agencies and organizations.
7. Performs informational duties such as writing stories and news articles; giving talks at meetings; participating in conservation demonstrations; conducting conservation field tours; and staffing displays at various outreach events.
8. Apply applicable NRCS and Farm Bill programs to address resource concerns and explains financial assistance programs and payment procedures to applicants and contract holders. Reports work completed in the NRCS reporting system.
9. Utilizes available computer software programs as needed. Enters conservation planning data and applied practices into the field office computer system.
10. Conduct regular follow-up on all scheduled practices assigned; develops operation and maintenance agreements for practices; performs annual contract reviews to ensure contract schedules are followed and practices are being maintained according to NRCS standards and specifications. Notify the NRCS designated contact when practices are behind schedule.
