Thanks to everyone who sent questions and concerns. We have consolidated the questions and posted answers to the best of our ability; as circumstances change, some of the answers may also change. We will post more questions and answers as they become available from reliable sources. Yaww

- Jamie Betters
 - If you were exposed to someone with COVID when should you get a test.. the same day, the next day...when you have symptoms? what is the appropriate time since the incubation period is 2-14 days?
 - ANSWER - Per Dr. Vir - there really is not a best time; if you have had an exposure, we have the capacity to test you so the sooner the better.
- Joyce Hoew
 - How many tribal members currently have coronavirus?
 - James Sommerfeldt - They said as of this morning, 23 cases within reservation boundaries
 - ANSWER - James Sommerfeldt, That's correct.
- Arthur J Wilber
 - How are we prepared for potential asymptomatic carrier guest and employees?
 - ANSWER - Gaming Administration worked with the Nation's public health officer and health professionals to develop a reopening plan. A large part of the plan is disinfecting every location after every patron has utilized equipment. Our employees will continue to enforce social distancing and observe hand washing frequently, and our employees will be trained prior to opening.
- Harrison Sehres
 - There was a press release Oneida is opening up may 26th so there following republicans. Wow money over safety
 - ANSWER - The Oneida Nation's current safer at home order outlines the process, procedures and safety measure that will be taken to protect our employees and guests. Our Gaming Administration worked hand in hand with our public health office, health officials and the Nation's leadership to develop reopening plans.
