RESOLUTION # 7-29-08-A

IHS/PHN Community Based Model of PHN Case Management Services

WHEREAS, the Oneida Tribe of Indians of Wisconsin is a federally recognized Indian government and a treaty tribe recognized by the laws of the United States, and

WHEREAS, the Oneida General Tribal Council is the governing body of the Oneida Tribe of Indians of Wisconsin, and

WHEREAS, the Oneida Business Committee has been delegated the authority under Article IV, Section 1 of the Oneida Tribal Constitution by the Oneida General Tribal Council, and

WHEREAS, the Oneida Tribe of Indians of Wisconsin has determined that the overall goal of the Oneida Tribe is to protect, maintain and improve the standard of living and the environment in which the Oneida people live, and

WHEREAS, the Oneida Community Health Center has developed a proposal for the Community Health Nurses to participate in a community based model program of case management services designed to improve the health outcomes of high risk patients within the Oneida Nation Reservation boundaries, and

WHEREAS, the Oneida Community Health Center proposal for providing case management services by Community Health Nurses will have a positive impact on the standard and quality of life of Oneida community members, and

NOW THEREFORE BE IT RESOLVED, that the Oneida Community Health Center is hereby authorized to submit a grant application to the Indian Health Service (IHS) Division of Nursing, Office of Public Health Nursing (PHN) to provide community based model of PHN case management services. This program is authorized under the Snyder Act, 25 U.S.C. 13; Section 301(a), Public Health Service Act, as amended, and the Indian Health Care Improvement Act (IHCIA) 25 U.S.C. 1652. This program is described at 93.933 in the Catalog of Federal Domestic Assistance (CFDA).

CERTIFICATION

I, the undersigned, as Secretary of the Oneida Business Committee, hereby certify that the Oneida Business Committee is composed of 9 members of whom 5 members constitute a quorum. 6 members were present at a meeting duly called, noticed and held on the 29th day of July, 2008; that the foregoing resolution was duly adopted at such meeting by a vote of 6 members for; 0 members against, and 0 members not voting; and that said resolution has not been rescinded or amended in any way.

RESOLUTION # 7-29-08-A

- Grant:** IHS / PHN Community Based Model of PHN Case Management Services.
- Program:** Community Health Nursing
- Program Director:** Pearl Webster, RN, MSN, Director of Nursing
- Grant Amount:** Over 4 years (48 months); \$150,000 per year, starting August 2008.
- Match:** No dollar amount match requested. Plan to continue current Case Management Services by the Community Health Nurses.
- Synopsis:** The purpose of the program is to improve health outcomes of high risk patients through a community case management model that utilizes the PHN as case manager. Research indicates nursing case management is a cost effective way to maximize health outcomes. The PHN Model of community based case management utilizes roles and functions of PHN services of assessment, planning, coordinating services, communication and monitoring. The goals and outcomes of the PHN Case Management model are early detection, diagnosis, treatment and evaluation that will improve health outcomes in a cost effective manner. This model utilizes all prevention components of primary, secondary and tertiary prevention in the home with patient and family. The community based case management model addresses the scope of practice of PHN working with individuals and families in a population-based practice.
- Health disparities are greater for American Indian/Alaska Native (AI/AN) communities than the general United States population. Infant mortality is greater in the AI/AN population than United States in general, suicide rates are greater, unintentional injuries are greater, and chronic disease is increasing. This project will focus on a PHN community based case management model. The project will be conducted in a phased approach, using the nursing process - assessment, planning, implementation, and evaluation.
