## HIP

Loretta explained that funds are available in the following manner:

- A: Housing will remain non-standard. The cumulative total expenditure of HIP funds should not exceed \$2500 per dwelling, and may be provided over several years.
- B: Housing will become standard. One time funding up to \$10,000 may be given.
- C: Down payments not to exceed the amount necessary to secure the loan plus closing costs, whichever is less not to exceed \$5,000.
- D: New Housing - not to exceed \$25,000

Loretta met with the BIA people and she was told the funding was increased from \$46,000 to \$70,800. The planning made by the Business Committee at the time was based on the \$46,000 and out of that the Business Committee set aside \$5,000 to finish the inside plumbing in homes that will be receiving sewer and water from IHS.

John Spangberg said he had \$40,000 for wells and septic that get HIP funds John also has \$36,000 for homes that are two years old or newer. John feels he has enough money to possibly put in about 9 wells and septic systems.

Debbie asked how you arrive at priority for HIP. Loretta stated the guide lines are income, family size, those people not eligible for other programs, those and federal guide lines. The Business Committee reaffirmed the elderly and the handicapped. The Category A first priority, Category B Second and Category C as the third priority.

Dorothy Powless asked if she was on the list for Category C. She was told that she is not on the list but she could put her name on the list. Debbie asked if her mother Pearl House could be put back on the list. Debbie was told Pearl will be considered with all the people who qualify but there is no guarantee how far the funds will cover. Information on the HIP will be in the newspaper. John Spangberg said he is working on the Kathy Green Water and Septic System. Loretta and Gordon will work on the HIP information and bring this back to the Business Committee next week.
