## EDUCATION AD HOC MEETING

The Ad Hoc Committee has been having informal meetings discussing the over-all Education Development. One of the main points of discussion was the Education Board. The Education Board up to this point has never been able to get going and the question was what can be done to get them together.

Another point was the future funding coming into the Tribe for Education. We can't continue to depend on the Federal Government for the grants. We have been looking at the private sources. The other point was the development of future policies for the Education area and possibility of Department with-in the overall education area.

Loretta brought up board training. The misunderstanding of the roll that each Committee or Board has. She said she is checking out the type of training that could help the Tribe in these areas.

Tony moved to recess. Gordon seconded. Motion Carried. Recessed at 10:08.

Respectfully submitted,

*Gordon McLester*
