### 400-ONEIDA TRIBAL SCHOOL BOARD

- 1) Oneida Tribal Management System Exception: The School board will meet on two or more occasions and bring back a recommendation on this item.
- 2) Audit: Audits by the Department of Public Instruction regarding Hot Lunch, Chapter I regarding remedial Math and Reading, and the Tribe's annual audit all indicate that the school's operation is sound and improving.
- 3) Board Training Report: Board training has been accomplished. Two (2) board members have attended a training seminar regarding tribally contracted schools, 638, and how tribal schools operate. Each member received training books with detailed information, which was passed on to the remaining members of the board. The Oneida Tribal School Board was invited to attend board training available at the Oneida Health Center in January
- 4) Sacred Heart Center: Bill feels that the tribal school would not meet the kinds of needs for the amount of students. (Budget generated on number of students). He stated that the tribal school would probably require additional space. Discussion continued regarding the possible development of a high school in the future. A survey which has been developed has recently been approved for dissemination in the community. It will be sent to each parents/guardians of area Oneida junior high and high school students. Planning will begin immediately if there is sufficient support and numbers of students to make the school academically and fiscally sound.
