Elder's Meditation

"I am building myself. There are many roots. I plant, I pick, I prune. I consume."

--Wendy Rose, HOPI/MIWOK

The most sacred thing on this Mother Earth is life. My life on this earth is governed by God's laws, principles, and spiritual values. These things are my roots. Let me see Your gifts of growing and becoming a spiritual warrior. Make my strength based on values - spiritual values; on principles and laws, the laws of God that really run the universe. We need to realize the seeds we plant in the spring will be what shows up in our summer season of growth and will be the fruits that we will harvest in our fall season. We really have a lot to do with what shows up in our lives.

Great Spirit, let my seed that I plant today be based on values that will make You pleased with my selection.

"If you think you can, you can...If you think you can not...you are right."

Mary Kay Ash

2009 H1N1 Influenza Vaccine
“Frequently Asked Questions”
Wisconsin Division of Public Health
Current as of September 24, 2009

Frequently Asked Questions about 2009 H1N1 Influenza Vaccine

Where's the 2009 H1N1 flu vaccine?

The Food and Drug Administration has approved a 2009 H1N1 influenza vaccine. This paves the way for vaccine production. The first limited supplies are expected to arrive early in October.

- Vaccinations will all be voluntary and there will be enough vaccine available for everyone who wants it. However, it will not all be available at once due to a limited initial supply.
- The bulk of vaccine will start arriving by mid-October.
- The federal government has ordered 195 million doses of H1N1 vaccine. In a typical year, 100 million doses of seasonal flu vaccine are administered.
- Because early vaccine shipments to Wisconsin will be limited in early October, the vaccine will be administered first to individuals in the CDC's target groups:
 - Pregnant women
 - Household contacts and caregivers for children less than 6 months old
 - Healthcare and emergency medical services personnel
 - All people age 6 months through 24 years
 - Persons age 25 through 64 years who have conditions associated with higher risk of complications from influenza
- The use of target populations allows public health the ability to reduce the spread of disease and protect those most vulnerable.
- The state's vaccine distribution plan will be divided into three phases:
 - Phase I: Limited supply focused toward vaccinating pregnant women, health care and emergency medical services personnel and if supply allows family members of children < 6 mo.
 - Phase II: Larger supply focused primarily on public health efforts and private care providers to vaccinate remainder of targeted populations.
 - Phase III: Ongoing weekly supply focused on vaccinating remainder of targeted population as well as non-targeted individuals.

Will one shot work for both types of flu?

- The seasonal influenza vaccine will *not* protect against 2009 H1N1 influenza.
- The U.S. Food and Drug Administration (FDA) has approved the use of one dose of 2009 H1N1 flu vaccine for persons 10 years of age and older.
- At this time, FDA has approved two doses for children 9 years of age and younger. As with seasonal

vaccine, children ages 6 months through 35 months get two doses of 2009 H1N1 flu vaccine that contains one-half the dose used for older children and adults.

- Since as many as four different flu strains may be making people sick this fall, it is more important than ever this year to get vaccinated against “seasonal” flu.
- Since the seasonal vaccine will be available before the 2009 H1N1 vaccine, you should go ahead and get a seasonal flu shot as soon as it is available to you – and if you are in a high-risk group for severe illness, it is especially important to get your 2009 H1N1 vaccination as soon as it is available to you.
- Initial shipments of the seasonal vaccine are already arriving in Wisconsin. Check with your health care provider and be alert for announcements about special flu shot clinics so that you can get vaccinated.
- Seasonal vaccine is available in most parts of the state.

Why won't the 2009 H1N1 flu vaccine be available to the general public right away?

- The goal of both the federal and state government is to use the early vaccine doses to protect those most vulnerable to this specific virus.
- With an earlier vaccine shipment we will have a smaller number of doses available which means we have to make a choice on who to target.
- If we were to use the limited preliminary shipment to hold mass vaccination clinics we would exhaust the supply quickly and only manage to scratch the surface of those in the targeted universe.

Why aren't senior citizens among the targeted populations?

- The use of target populations allows public health the ability to reduce the spread of disease and protect those most vulnerable.
- All of the populations on the targeted list are highly susceptible to the H1N1 virus, whereas those over the age of 65 appear to be resistant to the virus.
- Those over the age of 65 are, however, very susceptible to the seasonal flu which will also be in circulation this fall.
- The seasonal flu vaccine is currently available and it is highly recommended that those over the age of 65 and health care workers who care for seniors get vaccinated for seasonal flu.

Why is it so important to vaccinate health care workers right away?

- Emergency medical services and health care workers are likely to come in contact with influenza viruses as part of their occupation.
- They interact with many patients and other individuals, some of whom are vulnerable to severe complications from influenza infection.
 - If workers are exposed to 2009 H1N1 virus and not vaccinated against it, they can possibly transmit the 2009 H1N1 virus to many others in a healthcare facility and other settings.

- This could lead to a far greater and more serious outbreak.
- Having a healthy emergency response and health care work force is vital to protecting the health and safety of the public
- There will be a Free H1N1 Mist Vaccination Clinic at the Oneida Elementary School
- November 13 3:30pm – 6:00pm AND November 14 8:30am – 11:00am

2907 South Overland Road
Oneida, WI 54155
920-869-2448

Hours: Monday – Friday 8:00 A. M. to 4:30 P. M.

Come meet our wonder staff in our Library:
Roberta Young, Library Aide
Linda F. Douglas, Elder Helper

Participants in our Library are afforded the opportunity to learn personal computer application – if you have questions, feel free to ask any staff for assistance. We can also call the Career Center to remote into our computer if needed. Fret not we are here to help. Come and check us out.

Computers and networks are powerful enabling technologies for accessing and distributing information and knowledge. These technologies leverage each individual's ability to access and copy information from remote sources. We also have the equipment to convert pictures off a memory card from a digital camera. Users are asked to be mindful of the rights of others privacy, intellectual property, and personal information. Inappropriate use is defined in the Oneida Tribe Computer Resource Ordinance and is available as requested.

Accessing our Library is simple. Stop in, ask to enter the Library and a staff member will greet you. You will be asked to sign in and out so we can make sure everyone is accounted for in case of an emergency.

We ask for your cooperation in keeping this area clean and orderly. We hope to maintain an environment that supports an enjoyable use of the computer or any part of the Library.

These computers are here for the elders so we ask that young adults or children are not on the computer unless they are assisting you as an elder. We have a printer available and ask that each person be responsible. Donations are accepted for any printing requests.

We all hope to see you soon and we hope you have wonderful experience. Who is your favorite author? We have an inventory of our books and we might have just book you are looking for. Bring a friend. Learn together. Share with us and teach us.

## ***Incentive Program Now Opened to Tribal Employees***

November kicked off the start of our new tribal wide elderly incentive program. In these first few weeks, we have already received a great amount of excitement and participation. Great! Let's keep it going!

If you are not familiar with this new program, points are awarded for participation in numerous events and activities across the tribal organization that promotes and deals with physical, mental, and spiritual health. Top 10 point winners will win monthly prizes, with the top 2 winners winning larger prizes. For a list of activities that are eligible for points and a club card, please stop by at any one of the participating locations. REMEMBER to bring your cards and get them signed by staff as you participate in these activities. Also, your November cards are due to any one of the locations by **DECEMBER 15<sup>th</sup>** in order to be eligible for prizes.

According to the brochure and membership card packet only non-tribal employees ages 55 and older were allowed to participate in the program. However, shortly after the program kicked off, we have received a lot of feedback from tribal employees that wanted to participate. It's great to see our tribal members excited about becoming active and healthy, and we want to foster this as much as possible. As a result, we have decided to open the program to ALL community members 55 years of age and older. However, to make sure that participation in this program does not interfere with work in any way, please get approval from your supervisors prior to participating. Those employees directly involved in the program will not be able to participate, of course.

Keep up the great work and have an active November!

## What is the Community Options Program (COP)?

The purpose of the Wisconsin Community Options Program is to provide the assistance an individual needs in order to continue to live in his or her own home, in his or her own community, at a cost which averages no more than that of nursing home care. The Oneida Tribe is the only Tribe in Wisconsin that has the Community Options Program. The Community Options Program is not a Tribal Program. The program receives only State and Federal Medicaid Waivers Funding. An individual needs to qualify both medically and financially for the program. This eligibility is determined through an assessment with a Social Worker and Registered Nurse in your home, along with financial eligibility determination through the Economic Support Program. In addition, an individual must be an enrolled member of the Oneida Tribe or another federally recognized Tribe/Alaskan Native residing on Oneida Tribal Boundaries in the State of Wisconsin.

Services available for eligible individuals vary, based on your needs, strengths and resources. Community Options provides services, equipment or aids which allow you to live safely, with dignity and respect in the community. Some examples include:

- Home modification
- Respite care
- Adaptive equipment
- Financial counseling
- Care management
- Communication aids
- Home health care
- Residential services
- Personal care
- Housekeeping

For more information, contact Carrie Lindsey, Social Worker for the Community Options Program at 869-4888.

Dear Elderly Services and Oneida Community,

O\*n^ ki> wah

This is my final month here. I am leaving here for new adventures and I wanted to say thank you for the abundance of hospitality. I moved to this new place unsure of what to expect.

I have met so many people that I will remember forever along with knowledge and experiences that will be forever instilled in my mind.

I hope that everyone I met will remember me fondly.

## ACKNOWLEDGEMENT

Elderly Services has received some invaluable comments from the family of one of our clients and the from the elder too.

Yadakna (Yadi) Jordan is a Respite Worker and has been providing services for our program for about ½ year. It is so fantastic to receive positive comments about her and any of our staff.

Comments received were that Yadi takes the time to talk with the client and family as well. She keeps the client informed of community events, activities and happenings. This helps to make the elder feel still a part of the community - as the elder cannot get out as much as in the past.

Good job, Yadi. We are so proud to have you on our team.

## **Thank You to the Summer Associates**

This past summer, Oneida Elderly Services participated in a Presidential initiative to involve high school graduates in serving their community, known as the Summer Associates Program. These associates helped with home chore, meal site, transportation, activities and in-home chore over the eight weeks of their service.

We at Elderly Services are pleased to announce that this program has received the Presidential Volunteer Service Award. This is a very prestigious award given to the youth who have accepted the challenge of making a positive impact in their community.

**This award came with a letter from the President of the United States, Barack Obama, a Certificate of Achievement signed by the Corporation for National and Community Service, and a thank you letter from the Presidents Council on Service and Civic Participation.**
