

## Questions & Answers

**Will the \$.30 wage increase apply to table games dealers? Their wages are capped.**

HRD will follow the SOP regarding wage adjustments to determine eligibility. If an individual meets the qualifications to receive the wage adjustment and they are either capped or at the maximum within their wage scale, they will receive a lump sum payout.

**Do you know if the Fitness Center will be opening all the way soon?**

The Fitness Center has an approved reopening plan and intends to open to the public with limited services (due to staffing) 30 days after the Public Health Emergency is lifted. We will have a better idea as to the hours of operation and services that can be provided after the workforce levels are approved and we can fill vacant (budgeted) positions.

**When will the pool open, all the YMCA's are open?**

The response would be the same as the Fitness Center opening. GSD dose realize that people are comparing our operations to similar operations throughout the Brown and Outagamie counties. However, these counties do not have an active Public Health Emergency and Safer at Home Order in place. If we didn't have those in place, we would be opening with safety guidelines for our operations.
