

CDC# 04-022 - Public Transit Garage

Project Description:

Oneida Public Transit is looking to construct a new facility to meet their functional and operational needs. Their current facility fails to meet their needs as it was only intended to be a temporary location. The proposed facility will consist of office space, vehicle storage and wash bay to accommodate the department's space needs. The first objective is to hire a Design firm to provide basic Architectural services to assist in the development of a new facility.

Oneida Public Transit provides safe, reliable, and affordable public transportation that supports life-long opportunities to strengthen education, well-being, and ts?niyukwalihot^ throughout the Oneida Community.

Current Status:

Request for Proposals were due August 3rd for Design Services. Engineering received a total of two Proposals from qualified firms. The Project Team Selection Committee had performed their evaluations of each firm and scored each firm appropriately per the criteria. It was determined that Somerville, Inc. was the highest scoring firm. Engineering is currently in process of reviewing their Proposed Fee's and will then transfer into the Contracting phase.

Schedule:

Approvals - Complete
Bidding- In process
Design - To be Determined
Construction - To be Determined
