

To use the Oneida Font created by Dr. Abbott in Microsoft Word:

From the Home tab, find font list

Use the arrow on the side of the box until you see ONEIDA, then select ONEIDA, then select OK.

In order to get a:

You need to type a:

á
é
í
ó
Á
ú
·
Λ
?

@

\$
%
^
&
=
<
>

You will probably want to put the size of the font at about a 14 also, just so it is easier to read.
