

CIP # 07-002 SS Building Remodel Phase V

Project Description:

The approved project is a continuation of the various remodeling/upgrades of the existing facility. The project will address, in stages: building code, life safety, asbestos abatement, functional issues and operational inefficiencies. The project outcome will be an energy efficient, functional, healthy, safe and comfortable environment for the Social Services Building occupants and clients. The current stage of this phased remodeling project will focus on building HVAC upgrades.

Current Status:

Stage 3—HVAC: Construction prep work has started, full schedule being developed based upon coordination with subcontractors.

Schedule:

Approvals - Complete

Design - HVAC complete.
