

## ENG # 21-124 - Rolling Hills Community Sewer

### Project Description:

The project will design and construct a community sewer collection system to serve the Rolling Hills Community area homes. The new system will be connected to the Oneida sanitary sewer on Ranch Road.

### Current Status:

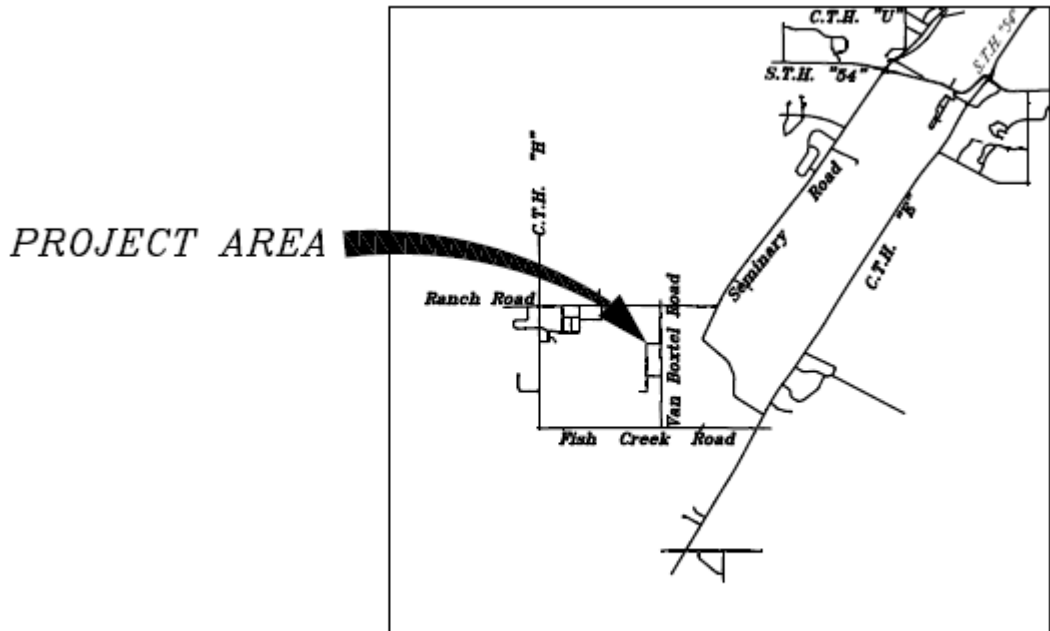

- IHS doesn't have the staff to complete the engineering associated with these projects in a timely manner, so a Request for Proposal (RFP) for engineering services has been issued.
- Engineering Department coordinating the RFP process. Proposals due end of December.

### Schedule:

Approvals - complete.  
 Design - 2023  
 Bidding - 2023  
 Construction - 2023  
 Substantial Completion - 2023

### Project Partners:

Utilities Dept., Land Management, Engineering, DPW, EHSLA, IHS
