“A place for Healing, Support and Wisdom”

## Recovery Coaches

Recovery Coaching services can be offered in person, by phone and in the community setting before, during and after treatment services. A coach helps the recoveree by connecting support services that can help succeed in recovery. By identifying the recoverees concerns, the coach can provide the necessary tools needed to empower the individual by helping develop and expand on the recoveree’s strengths, setting realistic goals that focus on their talents.

## A place for You

The Recovery Nest offers a place of stability, so that members can access services and resources they need. By providing support and resources along the stages an individual needs for assistance with different options to manage mental health, maintain sobriety, and build a support community. Overall, this program is designed to help people maintain recovery, reduce relapse, and fulfill their potential.

## Hub and Spoke

The Hub and Spoke Integrated Recovery Support Services benefit aims to connect you with services to help support your health and recovery. This service is available to all BadgerCare Plus or Medicaid members.
