

CDC # 13-011 - Oneida Nation High School

Project Description:

The proposed project is to remove the current Oneida Nation High School (ONHS) academic program from its location within the Norbert Hill Center into a new facility. A new school would provide the opportunity for improved educational programs which would attract a larger student body and expand the learning experience. The Nation’s goal is to provide a safe, functional learning environment that serves as the foundation for a quality educational experience of all students, families and the Oneida Community. ^yehya?tuhsokaytehlihake “Someone will be educated”.

The project is being coordinated with CDC #16-011 Oneida Recreation Complex with the intention that they will share a site/campus.

Current Status:

- The project’s Space Needs Summary determined the size of the building at 110,772 square feet.
- The site analysis for the campus determined a need for 59 to 88 acres of property.
- The CDC Approval Package is in process of being assembled:
 - ◊ Confirming some funding options for operations.
 - ◊ Finalizing Project Budget Estimate.
