

ENG # 21-124 - Rolling Hills Community Sewer

Project Description:

The project will design and construct a community sewer collection system to serve the Rolling Hills Community area homes. The new system will be connected to the Oneida sanitary sewer on Ranch Road.

Current Status:

- IHS doesn't have the staff to complete the engineering associated with these projects in a timely manner, so a Request for Proposal (RFP) process for engineering services has been completed.
- Design contract for selected vendor is being drafted.

Schedule:

Approvals - complete.

Design - 2023

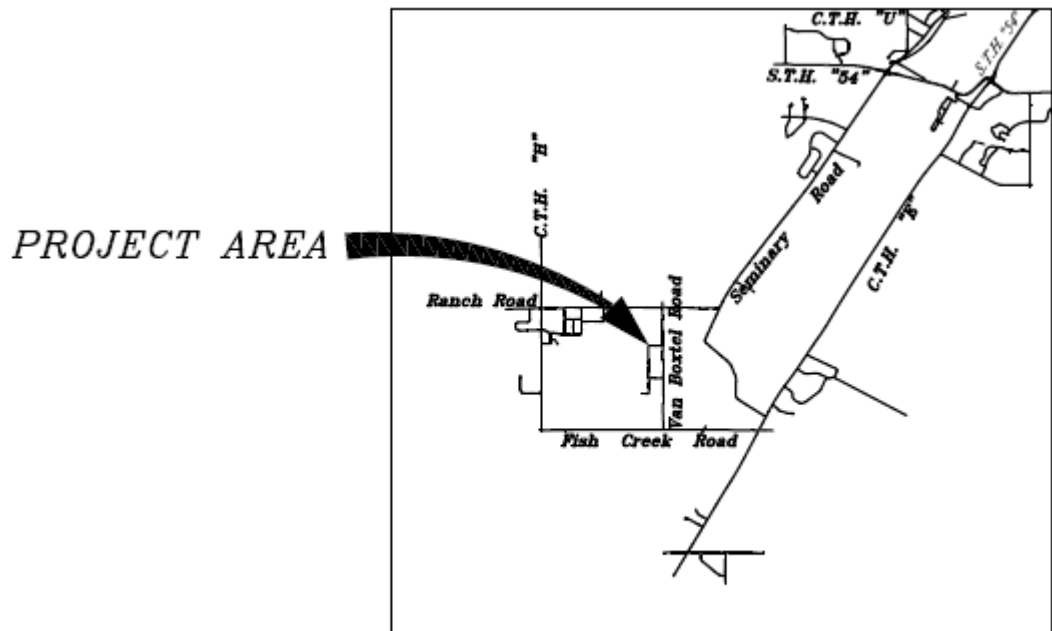

Bidding - 2023

Construction - 2023—2024

Substantial Completion - 2024

Project Partners:

Utilities Dept., Land Management, Engineering, DPW, EHSLA, IHS
