

NFL Draft Ahead—for the Vikings.

By Leland Cutbank

Packers Fans ... Move Along!

This piece is all about the best team in the NFC North, the Minnesota Vikings. Don't believe it? Ask and answer the following question: Who won the Division Title last season?

Yup. Under Head Coach Kevin O'Connell, the Vikings have vastly improved. But even the Vikings are missing a couple of parts that might just put them in the Super Bowl.

The Viking have the 23rd pick in the First Round.

Finally, good luck to the Packers in the draft and the season. They'll need it.

Ohnekanusho-ku' (Water)

By Dustin Elm

Water. It's all around us. But, do we ever stop to really think about it? Such as where your tap water comes from, or, how clean your water really is, or isn't. Supposedly, Earth's water is 4.5 billion years old! How dirty is it after that long a life? This depends on where it comes from and how it is filtered. Just a quick check on your own water intake could improve your hydrations levels which increase your dopamine levels slightly, thereby improving your mood.

As you can see, water is an amazing subject as well as the world's most important resource. The more you know, the more you can appreciate it the next time you drink a glass of water or take a shower.

Students and Staff Enjoy Some Pie-In the Face!

Photos Courtesy of Cindy Thomas

Pi Day found ONHS students and staff gathering for a Pie Eating Contest and "Pie in the Face" fundraiser. This photo of ONHS students as they were just getting started and before they found themselves feeling too much of a good thing.

There were some direct hits and plenty of misses in the "Pie in the Face" fundraiser starring ONHS staff members (l to r) Jamison King, Emily Skenandore, and Breck Warren. Students paid a dollar to try and plaster their favorite teacher's face with a pie of whipped cream. The teachers can still be identified in this early picture.
