

CDC # 15-001 Oneida Community Cannery

Project Description:

The proposed Oneida Community Cannery (formerly named Food Innovation Center) would develop a new facility for the Oneida Nation Cannery and its programmatic efforts. The purpose of this project is to focus this center to be a new cannery and training facility. The Community Cannery will allow for the Cannery to best serve the community and the demand placed on the program by facilitating the food processing needs of the community, and continuing to allow for the transfer of knowledge of food and empowering our citizens in the safe production and processing of their own foods.

Current Status:

- Cannery Team has been in discussions with McMahon Architects to assist in the floor plan design to further enhance the layout to provide the most efficient and effective design for the Cannery.
- McMahon has scheduled another meeting to discuss the changes developed from the last meeting and mark-up the new plan to further improve upon the design for the Cannery Team.
- Each Iteration has been an improvement to design from the previous work.

Schedule:

Approvals - 2022
Design - 2023
Bidding - 2023
Construction - 2023—2024
Substantial Completion - 2024

Project Partners:

Environmental, Health, Safety, Land & Agriculture Division - Food & Agriculture Area; Engineering
