

COVID-19 Vaccination

New Changes

All patients 6 months and older are recommended to get a bivalent vaccine

ARE YOU UP-TO-DATE?

Who is eligible for a **SECOND** bivalent vaccine?

- 65 years or older and **FOUR** months since your last Bivalent vaccine
- 6 years & up who are immunocompromised and **TWO** months since last bivalent dose
Additional doses and intervals administered at the discretion of your healthcare provider

Who is eligible for their **FIRST** bivalent vaccine?

- Anyone 6 months & up who has NEVER received a COVID-19 vaccine
- Anyone 6 months & up who completed their primary COVID-19 vaccine series and has NOT received a bivalent vaccine

Pediatric patients 6 months - 5 years have updated recommendations on vaccine schedule.

Call Oneida Public Health to see if your child is up-to-date.
