

## ENG # 21-124 - Rolling Hills Community Sewer

### Project Description:

The project will design and construct a community sewer collection system to serve the Rolling Hills Community area homes. The new system will be connected to the Oneida sanitary sewer on Ranch Road.

### Current Status:

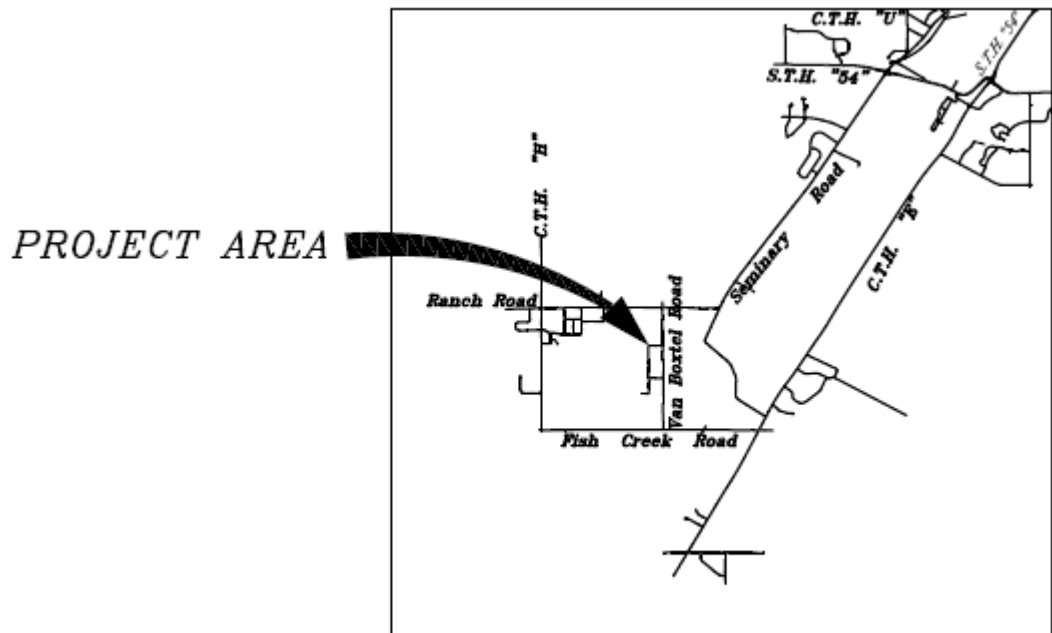

- McMahon Associates is currently working on the design documents in coordination with IHS.
  - Piping and pump locations have been selected and the final design documents are being produced.
- A forthcoming formal notice will be issued to impacted residents.

### Schedule:

Approvals - complete.  
Design - Completed 2024  
Bidding - 2024  
Construction - 2024—2025  
Substantial Completion - 2025

### Project Partners:

Utilities Dept., Land Management, Engineering, DPW, EHSLA, IHS
