

*To be Oneida is a heritage, a legacy, an identity. It's a gift received from those who journey before us, shared with those who journey with us, and passed to those who*

## HELP US FIGHT CANCER BY JOINING THE NMDP DONOR REGISTRY TODAY!

Tyler is a spirited 16-year-old who loves Twenty One Pilots and Cage the Elephant. In 2023 Tyler was diagnosed with a life-threatening blood cancer. He spent nine months in the hospital, courageously facing every chemo treatment with his Oneida Nation flag hanging proudly in his hospital room. While enduring his procedures with grace, Tyler's playful and generous heart made him a favorite among nurses. In 2024, his unyielding battle continues, and he now seeks a stem cell donor from his Oneida community. With a simple cheek swab you can help Tyler, or a patient like him, find their life-saving donor.
