- 61

62 **SECTION 5. CONTENTS OF THE LEGISLATION**

- 63 **A. *Computer to Technology Resources.*** The proposed amendments to the Law change the title and
64 references throughout the Law from “computer resources” to “technology resources.” Technology
65 resources is defined as any tools, systems, and applications that use technology to fulfill their purposes.
66 [2 *O.C. 215.3-1(e)*]. The Law provides that technology resources may include, but are not limited to,
67 computers, tablets, telephones, facsimile machines, photocopiers, networks, virtual applications, and
68 software, such as internet connectivity and access to internet services and electronic mail. *Id.*
- 69 ▪ *Effect.* The revised title and references throughout the Law are more inclusive of the fact that the
70 Nation uses many different forms of technology beyond just computers, and the amendments
71 demonstrate that the Law should apply to all technology used within the Nation, not just computers.
- 72 **B. *Location of Inappropriate Personal Use.*** Currently, the Law provides that users are expected to
73 conduct themselves professionally and to refrain from using technology resources of the Nation for
74 activities that are inappropriate. [2 *O.C. 215.5-1*]. The proposed amendments to the Law add in
75 clarification that users are expected to conduct themselves professionally and to refrain from using
76 technology resources of the Nation for activities that are inappropriate no matter in what location the
77 user utilizes the technology resources of the Nation. *Id.*
- 78 ▪ *Effect.* The proposed amendments to the Law recognize that the same expectations apply even
79 though some users of the Nation may be using technology resources of the Nation from a variety
80 of locations, especially with the ability for some employees of the Nation to telecommute.
- 81 **C. *Reporting Inappropriate Use.*** The proposed amendments to the Law add in a new section that clarifies
82 that it shall not be deemed an inappropriate use for a user to share information or evidence regarding
83 the inappropriate use of another user if reporting the inappropriate use in accordance with the proper
84 reporting structure. [2 *O.C. 215.5-2*].
- 85 ▪ *Effect.* The Legislative Operating Committee intended that this new provision to the Law make it
86 very clear that a user who may forward on or share information or evidence regarding the
87 inappropriate use of another user will not be found to be engaging in an inappropriate use if using
88 the information or evidence to report the inappropriate use of another user in accordance with the
89 proper reporting structure.
- 90 **D. *Development of Standard Operating Procedures.*** Currently the Law provides that supervisors are
91 authorized to develop standard operating procedures defining excessive use for users subject to the
92 Nation’s personnel policies and procedures and who are under the supervisor’s authority. [2 *O.C. 215.7-*
93 *1(a)*]. The proposed amendments to the Law add further clarification into the Law by providing that
94 supervisors are authorized to develop standard operating procedures defining excessive use of
95 technology resources for any user that is an employee of the Nation and subject to the supervisor’s
96 authority, in addition to the fact that any standard operating procedure is required to be developed in
97 accordance with all other laws and rules of the Nation. *Id.*

- 98 ▪ *Effect.* The proposed amendment to the Law clarifies that any standard operating procedure
99 developed by a supervisor needs to be developed in accordance with all other laws and rules of the
100 Nation. It is important that there is consistency throughout the laws, rules, and standard operating
101 procedures of the Nation and that no conflicts exist between the various levels of regulations.
- 102 **E. *Delegation of Administrative Rulemaking Authority.*** The proposed amendments to the Law add in a
103 new provision in which DTS is delegated rulemaking authority in accordance with the Administrative
104 Rulemaking law to promulgate rules to govern technology resources of the Nation. [2 O.C. 215.9-1].
- 105 ▪ *Effect.* The Administrative Rulemaking law provides that only authorized agencies may
106 promulgate rules once they are granted rulemaking authority by a law of the Nation. [1 O.C. 106.4-
107 1]. This new provision of the Law delegates DTS rulemaking authority in accordance with the
108 Administrative Rulemaking law. This delegation of rulemaking authority will allow DTS to
109 develop rules to best govern the technology resources of the Nation.
110

111 **SECTION 6. EXISTING LEGISLATION**

- 112 **A. *References to the Other Laws of the Nation.*** The following laws of the Nation are referenced in the
113 Computer Resources Ordinance.
- 114 ▪ *Oneida Personnel Policies and Procedures.* The purpose of the Oneida Personnel Policies and
115 Procedures is to provide for the Nation’s employee related policies and procedures including
116 recruitment, selection, compensation and benefits, employee relations, safety and health, program
117 and enterprise rules and regulations, and record keeping.
- 118 ▪ This Law provides that employee violations of this law are subject to discipline in
119 accordance with the Nation’s laws governing employment. [2 O.C. 215.10-3].
- 120 ▪ Any disciplinary action against an employee for a violation of the Computer Resources
121 Ordinance is required to be conducted in accordance with the Oneida Personnel Policies
122 and Procedures.
- 123 ▪ *Administrative Rulemaking Law.* The Administrative Rulemaking law provides an efficient,
124 effective, and democratic process for enacting and revising administrative rules, to ensure that
125 authorized agencies act in a responsible and consistent manner when enacting and revising
126 administrative rules. [1 O.C. 106.1-2].
- 127 ▪ This Law delegates rulemaking authority to DTS to promulgate rules to govern technology
128 resources of the Nation. [2 O.C. 215.9-1].
- 129 ▪ Any rules promulgated by DTS are required to be developed in accordance with the process
130 and procedures of the Administrative Rulemaking law.
- 131 **B. *Other Laws that Reference the Computer Resources Ordinance.*** The following laws of the Nation
132 reference the Computer Resources Ordinance. The proposed amendments to the Law do not conflict
133 with any of the referenced laws.
- 134 ▪ *Social Media Policy.* The Social Media Policy regulates social media accounts, including a social
135 networking web page, blog or microblog, that is administered on behalf of the Tribe or a Tribal
136 entity. [2 O.C. 218.1-1].
- 137 ▪ The Social Media Policy is not intended to provide a right for employees to use the internet
138 or social media while at work for personal use. [2 O.C. 218.1-3]. Supervisors retain
139 discretion to permit or prohibit the personal use of computers in accordance with the
140 Computer Resources Ordinance. *Id.*

- 141 ▪ *Boards, Committees, and Commissions Law.* The Boards, Committees, and Commissions law

143 the appointment and election of persons to boards, committees and commissions, creation of
144 bylaws, maintenance of official records, compensation, and other items related to boards,
145 committees and commissions [1 O.C. 105.1-1].

147 sign an acknowledgment form provided by the Nation’s Secretary indicating notice of the
148 Nation’s applicable computer and media related laws, policies and rules. [1 O.C. 105.14-
149 3(d)].
150

151 **SECTION 7. OTHER CONSIDERATIONS**

- 152 A. *Fiscal Impact.* Under the Legislative Procedures Act, a fiscal impact statement is required for all

154 10-28-20-A titled, “*Further Interpretation of ‘Fiscal Impact Statement’ in the Legislative Procedures*
155 *Act,*” provides further clarification on who the Legislative Operating Committee may direct complete
156 a fiscal impact statement at various stages of the legislative process, as well as timeframes for
157 completing the fiscal impact statement.
158 ▪ *Conclusion.* The Legislative Operating Committee received a fiscal impact statement from the

MEMORANDUM

TO: Oneida Business Committee

FROM: Jo Anne House, Chief Counsel

DATE: August 28, 2024

SUBJECT: Resolution – *Affordable Home Ownership Strategy*

On July 10, 2024, the Oneida Business Committee adopted a motion, “to accept the report on Affordable Home Ownership Strategy/Veteran Loan Assessment and direct the Treasurer, Chief Financial Officer, General Manager, and Chief Counsel to work together to identify/recommend funds to be used for the program in the amount of four (4) million dollars for each of the two (2) programs.”

A draft resolution (see attached) was reviewed by Mark Powless, General Manager, and the Comprehensive Housing Division, to identify any recommended amendments to clarify the resolution. The revised resolution was forwarded to the RaLinda Ninham Lamberies, Chief Financial Officer, and the final draft was presented for a Statement of Effect.

The proposed action utilizes APRA-FRF-LR-TCS funds in the amount of \$8 million for the purposes of creating two programs – Revolving Affordable Mortgage Fund and Home Construction Support Services. The funds are combined into a single fund to reduce administration time and costs. Finally, the resolution directs rulemaking to be conducted to develop the program and allow the funds to be released. The General Manager is directed to report monthly on the status of the rulemaking to the Oneida Business Committee.

Submitted by: Clorissa N. Leeman, Senior Staff Attorney, Legislative Reference Office

Analysis by the Legislative Reference Office

Through the adoption of this resolution the Oneida Business Committee obligates eight million dollars (\$8,000,000) of APRA FRF LR Tribal Contribution Savings for the purpose of funding the Comprehensive Housing Division’s “Revolving Affordable Mortgage Loan Fund” from which the repayments on mortgage loans will be repaid into this revolving loan which shall become accessible for programming use as identified in this resolution and shall be tracked and accounted for separately from all existing mortgages.

This resolution identifies that the General Manager and the Comprehensive Housing Division have identified amendments to existing rules regarding land and housing to create better programming options which will be supported by this request, and that the Oneida Business Committee directs the General Manager to move forward with the amendments to create the proposed programming under the Administrative Rulemaking law.

This resolution thereby directs the General Manager to create rules for mortgage programs which include requirements specific to veteran’s housing programs among other loan recipients; report at the second Oneida Business Committee meeting of each month on the status of the rulemaking amendments until the programs are fully developed; and upon submission of the amended rule(s) the General Manager shall request the Revolving Affordable Mortgage Loan Fund be made accessible.

The Administrative Rulemaking law provides an efficient, effective, and democratic process for the adoption and amendment of administrative rules. [1 O.C. 106.1-1, 106.1-2]. The Administrative Rulemaking law provides authorized agencies the opportunity to promulgate rules interpreting the provisions of any law enforced or administered by it; provided that, a rule may not exceed the rulemaking authority granted under the law for which the rule is being promulgated. [1 O.C. 106.4-1]. An authorized agency is any board, committee, commission, department, program, or officer of the Nation that has been granted rulemaking authority. [1 O.C. 106.3-1(a)]. A rule is a set of requirements enacted by an authorized agency in order to implement, interpret and/or enforce a law of the Nation, which may include citation fee and penalty schedules. [1 O.C. 106.3-1(h)]. A rule developed in accordance with the Administrative Rulemaking law has the same force and effect as the law which delegated the authorized agency rulemaking authority, and cannot conflict or supersede a law, policy, or rule of the Nation or a resolution adopted by the Oneida Business Committee or General Tribal Council. [1 O.C. 106.4-1(a)-(b)].

The Mortgage and Foreclosure law sets the standards and requirements for participation in the mortgage programs and prescribes the foreclosure process required to be used in the event of a default of a mortgage. [6 O.C. 612.1-1]. The Mortgage and Foreclosure law provides that consistent with available funds, the Comprehensive Housing Division is responsible for providing mortgage programs for the following purposes and is required to establish rules naming said programs and providing the specific requirements for each program:

- Financing the purchase or down payment of existing homes and lands;
- Construction of new homes;
- Repairs and improvements to existing homes; and
- Refinancing existing mortgages. [6 O.C. 612.4-1].

The Mortgage and Foreclosure law then delegates joint administrative rulemaking authority to the Comprehensive Housing Division and the Oneida Land Commission for the purpose of governing:

- The selection of applicants for the issuance of a mortgage [6 O.C. 612.4-3];
- The requirements of mortgages entered into by the Comprehensive Housing Division [6 O.C. 612.4-4];
- The disposition of personal property [6 O.C. 612.7-5(a)(3)(B)]; and
- The razing of a foreclosed upon property. [6 O.C. 612.7-5(d)(2)].

The resolution also mentions the “Residential Sales Rule,” which is being interpreted to mean the Real Property Law Rule No. 2 - Comprehensive Housing Division Residential Sales. The Real Property law delegates administrative rulemaking authority to the Oneida Land Commission and the Comprehensive Housing Division to exercise joint rulemaking authority to provide process requirements, including but not limited to advertising, notice, prequalification, and selection, that apply in all circumstances when the Nation is selling a residential property. [6 O.C. 601.12-1].

This resolution’s directive that the General Manager create rules for mortgage programs which include requirements specific to veteran’s housing programs among other loan recipients conflicts with the Administrative Rulemaking law. The Administrative Rulemaking law provides that only authorized agencies may promulgate rules. [1 O.C. 106.4-1]. Additionally, the Administrative Rulemaking law requires that authorized agencies be delegated rulemaking authority through a law of the Nation, not a resolution. [1 O.C. 106.4-1].

The General Manager is not delegated administrative rulemaking authority through the Mortgage and Foreclosure law, the Real Property law, or any other law of the Nation that addresses property or land. Therefore, the General Manager is not an authorized agency under the Administrative Rulemaking law and has no authority to develop rules regarding mortgage programs. This resolution's directive that the General Manager develop rules regarding mortgage programs also conflicts with the Mortgage and Foreclosure law's very clear delegation of rulemaking authority to the Comprehensive Housing Division, and the Oneida Land Commission in certain circumstances. Additionally in accordance with the Administrative Rulemaking law, this resolution cannot confer administrative rulemaking authority to the General Manager.

It is also important to note that the Administrative Rulemaking law provides that the authorized agency has the authority to decide if amendments to a rule are necessary to pursue, and the law further clarifies that the Oneida Business Committee cannot compel an authorized agency to amend a rule. [1 O.C. 106.12-3]. Therefore, the Oneida Business Committee cannot, through adoption of this resolution, compel the amendment of any existing rule. If the Comprehensive Housing Division and the Oneida Land Commission were to decide that amendments to a rule should be made, any amendments made to the rule would need to follow the process provided for in the Administrative Rulemaking law. [1 O.C. 106.4-3].

This resolution also directs the General Manager to work collaboratively with Bay Bank to identify services that could be provided to members to make home construction more accessible through training, guides, and support services to homeowners to obtain necessary permits and inspections.

Conclusion

Adoption of this resolution would conflict with the Administrative Rulemaking law and the Mortgage and Foreclosure law.

The conflict in this resolution could be eliminated if instead of directing the General Manager to "create rules for mortgage programs which include requirements specific to veteran's housing programs among other loan recipients" which the Oneida Business Committee lacks the authority to do, the resolution instead directed the General Manager to monitor the progress of the Comprehensive Housing Division to create or amend rules for mortgage programs which include requirements specific to veteran's housing programs among other loan recipients, and then report at the second Oneida Business Committee meeting of each month on the status of the Comprehensive Housing Division's rulemaking progress until the programs are fully developed

E. Adopt resolution entitled Affordable Home Ownership Strategy (00:31:31)
Sponsor: Jo Anne House, Chief Counsel

Motion by Lawrence Barton to table this item, seconded by Jonas Hill. Motion carried:

Ayes: Lawrence Barton, Jonas Hill, Kirby Metoxen, Marlon Skenandore,
Jameson Wilson
Opposed: Lisa Liggins
Not Present: Tehassi Hill, Jennifer Webster

For the record: Secretary Lisa Liggins stated, On July 10th the General Manager and the Comprehensive Housing Division presented the "Affordable Home Ownership Strategy" to the Oneida Business Committee which contained four (4) parts; a budget request specifically for Comprehensive Housing Division's in house revolving home program to assist with Homeownership by Independent Purchase Program (HIPP) and For Sale by Owner Program; collaboration with the [Oneida] Land Commission to purchase ready to sell homes for the Residential Sales Program; collaboration with internal areas to revamp and create a successful Home Building Opportunity Program (HBO) that prepares and provides Oneida members with vacant lots to build homes; and collaboration with Bay Bank to administer the construction loan program on behalf of the Division, in which the Nation guarantees the construction loan. The areas completed the directive as requested. Additional direction was given for the Law Office to work with Finance to identify funds to fund the \$8 million dollars that was requested and required to make this Affordable Home Ownership Strategy a success and that was what was completed today so therefore I oppose the tabling of this resolution. Thank you.

For the record: Councilman Jameson Wilson stated, Mine was more along the lines of the conclusion of the statement of effect as the resolution, as is, directs the General Manager to create rules for mortgage programs which include requirements specific to the Veterans Housing Programs among other loan recipients. The Business Committee does not have authority to delegate that type of authority to the General Manager and those authorities would actually lie within the, for that law, with the Comprehensive Housing Division and Land Management. and Land Commission. If the resolution were restated to reflect "monitoring", have General Manager monitor the administrative rulemaking authority that's delegated to those affected entities, then I think we would be in compliance. But as the Legislative Operating Committee Chairman that's why I decided to support the tabling of the item. Thank you.

For the record: Vice-Chairman Brandon Yellowbird-Stevens stated, I believe if we're able to have discussion on the resolution, I think we could have rectified all of that. Have the conversation, talk about it, and make motions to that effect. That's why, I am not in a position to vote, but my counsel would have said, "talk about the issues, get a better understanding of what we need to see coming back here to this table if the resolution wasn't ready". Simply tabling an item doesn't allow for that, that's why I would have pressed to just to talk about it and could have brought it back in 30 days.

Re: GWA Payments Initial Report

The purpose of this memorandum is to provide an update regarding removing GWA payments being included in income calculations within the Nation's programs and services.

During the August 28, 2024 Regular Business Committee Meeting, the following motion passed:

Motion by Jonas Hill to direct the General Manager, Intergovernmental Affairs and Communications and the Law Office to create a project team with the General Manager as the lead to identify where GWA payments are included as income within the Nation's programs and services and to take steps to amend program and service requirements to exclude GWA payments as income whether funded by Tribal Contribution, federal or state funding, or third party funding and to report quarterly on the status of this project team and an initial report due the second Business Committee meeting in September to identify the programs, income formula, and funding source, seconded by Lawrence Barton.

Included herein are three updates:

- 1) The project team has met four times (weekly meetings) to discuss the GWA topic. One key member of the team was out for two weeks due to a pre-approved vacation. Representatives from Intergovernmental Affairs, Oneida Law Office, Comprehensive Housing Division, and the General Manager's office participated in the meetings.
- 2) The tasks to be completed include:
 - a. Contact the regional Housing and Urban Development (HUD) office in Chicago, Illinois, to receive an update on the application of General Welfare payments to rent determination. During the previous update from HUD in February 2023 they information us that our current method of rent calculation had not been amended.

Getting a response has been a challenge (3 emails sent and one phone call). We have now moved up the chain of command at HUD to request a response.

- b. Contact the Ho-Chunk Nation to discuss their approach to calculating rent for their HUD units. Intergovernmental Affairs successfully received response and we now requesting a formal meeting with their Housing staff.
- c. Develop an analysis of revising Comprehensive Housing Division's method for calculating rent to fully understand the impact of the change for our tenants. Currently, for some tenants, including General Welfare payments as income is beneficial due to the minimum income requirement of Comprehensive Housing Division.
- d. Currently, Comprehensive Housing Division is the only program/service of the Nation counting General Welfare payments as income.

Shekoli,

I have been appointed to the Community Advisory Committee for the Lower Green Bay and Fox River Area of Concern with the Wisconsin Department of Natural Resources. I applied for the appointment and was appointed on September 18, 2024.

The WDNR CAC is a group of concerned community members appointed to advise the WDNR, along with group of appointed and dedicated citizens from the Brown County area, regarding the Lower Green Bay and Fox River Area of Concern remedial action plans. More information can be found here:

<https://dnr.wisconsin.gov/topic/GreatLakes/GreenBay.html>

I understand that as long as I am under oath as an Oneida Business Committee Member that I am serving in my official capacity at all times. However, I will not be representing the interests of the Oneida Business Committee in this capacity and will be volunteering as a concerned community member of the Greater Green Bay Area. This is an informal appointment and as such the attached email will serve as notice of my selection on the CAC.

Recommendation

Accept as information the Wisconsin Department of Natural Resources appointment of Councilman Jonas Hill to the Community Advisory Committee, effective September 18th, 2024, through September 18th, 2025.

PROJECT EXECUTIVE SUMMARY

Project Title: Conservation – Field Office

Project Description:

The Conservation Department serves the Oneida Elders, Membership, Community, and other departments of the Oneida Nation. This project is required to allow the department to provide its services in a functional, efficient, effective, accessible manner. The current separation of the Conservation Department office functions from the field functions creates numerous issues as noted in this package. The proposed project would address the issues by constructing a new building to provide office space, shop space, and vehicle storage garage.

(see page 7 of CDC Approval Package)

Management/Business Plan:

The Conservation Department is a tribal service entity not structured to accumulate profits; therefore, a Business Plan is not applicable for this project per the Capital Improvement Process. No changes to the current management structure will be required due to this project.

(see page 8 of CDC Approval Package)

Site Selection:

The proposed project would be constructed on the current Conservation Department Field Operations parcel.

(see page 10 of CDC Approval Package)

Project Budget Estimate: (also see page 10 of CDC Approval Package)

Soft & Misc. Costs:		\$145,000
Construction:		\$1,068,000
Furniture, Fixtures & Equipment (FFE):		\$137,000
Contingency:	12%	\$162,000
Total (rounded):		\$1,512,000

Financial Plan:

Project funds have been requested in the FY2025 CIP budget.

(see page 11 of CDC Approval Package)

Communication Plan:

The standard process will be used for communicating the project status to the community.

I. Needs Assessment and Project Justification

A. **Introduction:** The Conservation Department serves the Oneida Elders, Membership, Community, and other departments of the Oneida Nation by providing the services noted below. This project is required to allow the department to provide these services in a functional, efficient, effective, accessible manner within its current limited resources.

1. Timber Management to meet the demand for processed (cut and split) wood resource, for heating supplementation, Ceremonial Funeral Burns, and other natural resource gathering/processing efforts.
 - a) Hazard tree removals and forest stand improvements are a prime utilized direct service to the Membership and Community.
2. Protect and establish the Oneida Nation's natural resources by assisting in the implementation of the Conservation Department initiatives, by maintaining rural recreational trails and pedestrian transportation routes, designated trees and shrubs, stocking and monitoring lakes, streams, and wildlife, and by implementing water and air protection standards.
3. Participate in community conservation, education, and cultural awareness events.
4. The utilization of services provided by natural resource gathering opportunities. These opportunities assist with alleviating some of the financial and/or food burdens of day to day living and can provide a positive outcome for individuals or families. During a time of difficult and uncertain situations, faced by many within our community, the simple act of being able utilize natural resources can have a long-term positive effect on their overall health and wellbeing.
5. Conservation Crew directly impacts the Oneida community's overall quality of life. Properly managed habitats provide access to culturally important natural resources. The managed habitats that sustain native wildlife populations provide essential cultural resources for the Oneida community.
6. Maintain and secure equipment and vehicles for the program activities and operations.

B. Present Facilities:

1. In 2006 the Conservation Department was approved to move into the house located on the parcel assigned to them for their field operations (N8047 County Road U). The use of the house as an office was granted a waiver by the Business Committee (4/12/06) of the 1996 policy of not using houses for office/business purposes. The support for locating Conservation at this location was based upon the Facilities Management Team's (FMT) recommendation to allow the use as temporary, with the long-term plan to replace the house with an office structure.

2. By 2018 the house was no longer capable of serving the needs of the department both for functional need and due to the conditions of the structure. So, the department moved its office function into the Land Management building on Airport Drive. At the time, the Land Division was under restructuring efforts and had available office space, however, this did not allow for the moving of department equipment/materials/supplies/etc.

C. **Problem:** The current separation of the department office functions from the field functions creates numerous issues as noted below. Also noted below are issues with limitations on the structures on the field site:

1. With no staff or limited time staff are on site, oversight of the grounds and drop-off of materials (wood yard waste, etc.) has been an issue. This includes materials not placed in the proper location or inappropriate materials being left on site.
2. Inefficient for staff to travel back and forth from physical office to field office site.
 - a) Making it increasingly difficult to meet the direct service requirements and requests from the community.
 - b) Exposing the staff to additional risk/liability when traveling between sites.
3. Vehicles stored outside exposing them to the elements which shortens the life span of these tribal assets.
 - a) Makes it difficult to control unauthorized persons from accessing the vehicles.
4. Vehicles/assets not located at one property.
5. The existing vacant field office structure is not usable due to:
 - a) It was not intended to be a permanent location. The Facilities Management Team's (FMT) recommendation was to allow the use as temporary, with the long-term plan to replace the house with an office structure.
 - b) Need for replacement of roof, windows, plumbing items, and HVAC system.
 - c) The shop/barn is not well insulated and consumes a lot of energy to heat.
6. The Conservation Crew workforce is utilizing their best efforts to meet the increased service needs and requests from the community; however, the separation of operations makes that difficult.

II. Business Plan

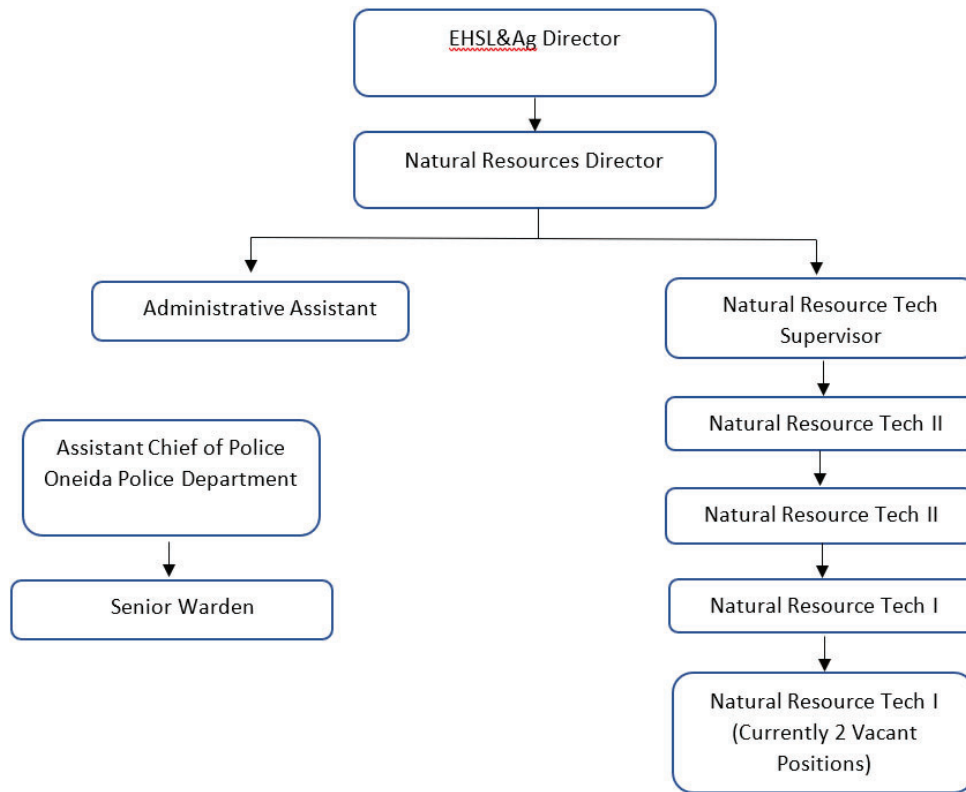

- A. The Conservation Department is a tribal service entity not structured to accumulate profits; therefore, a Business Plan is not applicable for this project per the Capital Improvement Process.

- B. Potential revenue sources to offset operational costs of the completed project include:
1. Sportsman License fees
 2. Sportsman Fishing License fees

III. Management Plan

A. Management: The Conservation Department is within the Environmental, Health, Safety, Land & Agriculture Division. No changes to the current management structure will be required due to this project.

B. Organizational Chart

C. Staffing, Requestor: Initially, current staffing will not change as a result of this project. However, as the program offerings grow, new staff are expected to grow to manage those programs. Those positions will be requested, as the need arises, through the normal HRD processes.

D. Staffing, Service Departments: The tribal service departments that are impacted by this project include the following. Their need for additional staffing due to this project is noted:

1. DPW – Facilities: no additional position(s) needed.
2. DPW – Groundskeeping: no additional position(s) needed
3. DPW – Custodial: no additional position(s) needed.

4. DTS: no additional position(s) needed.

IV. Facility Concept and Space Requirements

- A. The proposed project would remove the existing house and construct a new building to provide space for offices, multi-purpose space for training, breakroom & lockers, restrooms, shop space, cold storage space for tools, materials, etc., and vehicle storage garage.
- B. The new facility will be code compliant, more efficient for staff and equipment maintenance requirements, and house vehicles/equipment in secured storage.
- C. The new facility would include a generator to allow the staff to function in the event of a power outage. The department has a responsibility to address hazard tree issues during inclement weather events and power loss. Having the generator allows the ability to respond effectively and efficiently.
- D. The proposed building will be approximately 6,500 square feet.
- E. Consistent with the Oneida Design Standards, it is our intention to utilize sustainable design principles on this project. Meaning, we will design, construct, and operate the building to minimize negative impacts to the natural environment and health, while optimizing long-term costs.
- F. The spaces included in the project: see Concept Plans included in the Appendix.

V. Site Selection Criteria

- A. The proposed project would be constructed on the current Conservation Department Field Operations parcel (N8047 County Road U).
 1. see Concept Plans included in the Appendix.

VI. Environmental

- A. An Environmental Assessment may be initiated once the project has been approved and the design is at a stage where there is sufficient information to determine the need for an assessment.

Re: Veteran Gravestones

The purpose of this memorandum is to provide a response to a request from Tribal member, Nancy Barton, regarding Oneida Nation Veteran Gravestones.

During the April 24, 2024, the following request was reviewed by the Oneida Business Committee during their Regular BC Meeting:

Request

Approximately 260 graves; all do not need to be cleaned and reset. Episcopal, Methodist, Church of Christ Cemetery (E&EE), and all other applicable cemeteries in Oneida. The Nation can apply/received money from Veteran’s Affairs & State to apply for to power wash and reset the headstones.

Action

BC to direct the appropriate departments such as Veterans, IGA, and Grants to research and find the funding to refurbish and reconstruct the headstones for the Civil War and WWI Veterans and to come back with an updated report to the October 9, 2024, BC meeting.

Response

Prior to the COVID-19 pandemic, the Oneida Veteran’s Department conducted an inventory of Veteran graves at local cemeteries. The following totals were recorded:

20	Oneida Nation Cemetary
50	St. Joseph Cemetary on Seminary Rd
6	White Cemetaryon E & EE
30	Zion Lutheran Cemetary
24	Oneida Assembly of God Cemetary
274	Oneida Holy Apostles Church Cemetary
7	Mormon Church on Cty U
195	Oneida Methodist Church
606	Total

Cleaning

Per the U.S. Department of Veterans Affairs (VA):

The goal of cleaning is to remove air pollution soiling, lichen, bird droppings, dirt, salts, and sap — it is NOT to make the headstone or marker look "like new." Improper or unnecessary cleaning can accelerate the deterioration of marble and granite; pre-1970s bronze was not sealed and will have a blue-green patina that will not be removed by cleaning.

VA prohibits the general public from power washing Government-furnished headstones and markers due to the damage it may cause to historical headstones.

Even gentle cleaning is not recommended for headstones and markers exhibiting severe surface erosion or cracks, especially older stones.

(Source: <https://www.cem.va.gov/hmm/cleaning.asp>)

Of particular note regarding Oneida Nation gravestones is the presence of many Civil War era gravestones dating back approximately 150 years. These gravestones exhibit varying levels of deterioration and cleaning may accelerate the deterioration. Of those gravestones the greatest need for cleaning are the oldest gravestones.

A local vendor, as well as the VA recommend cleaning with D/2 Biological Solution. This chemical cleaner removes biological pollutants such as algae, mold, and lichen. The potential cost ranges between \$10,000-\$15,000. Attached is a Safety Data Sheet.

Resetting/Replacing

Up to 25 Veteran gravestones need resetting or replacement. An exact number is not known because:

- 1) Some names and grave information are currently unknown. Names on the gravestones have deteriorated beyond recognition and historical data is not available.
- 2) Notification to families of known gravestones will be required should some families not desire to have the grave site disturbed.
- 3) The Veteran may not have been registered in Wisconsin, thus limiting access to required VA paperwork.

The VA will provide replacement gravestones, at no cost. The cost to install the gravestones will fall on the Nation. The cost estimate, depending on the work necessary to remove current installations and re-install, will range between \$450-\$2,300.

Recommendations

Power washing of VA gravestones is highly discouraged and even gentle cleaning is discouraged for older gravestones. A chemical cleaner has been recommended however such chemicals are harmful to humans. The long-term effects on stone and environment are unknown.

The cleaning of gravestones is not recommended.

Resetting/Replacement

Connor Kestell, Oneida Nation Tribal Veteran Service Officer, has experience requesting replacing gravestones from the VA. Per the Va, “an individual employed by the relevant state, tribal organization, or local government whose official responsibilities include serving veterans and families of veterans, such as a state or county veterans service officer” may apply for a burial headstone. Attached is the application.

Ideally, family consent is desired before resetting or replacing any gravestones. In many, if not most, family contact information is not available. A community notice through the Kalihwisaks is appropriate to inform family members and provide an opportunity to decline an disturbance of a gravesite.

Resetting/Replacing Veteran gravestones is recommended. Prior to any action being taken a 6-month notice will be provided in the Kalihwisaks. The cost to install can be absorbed within existing budgets. Replacement will be accomplished during the summer/fall of 2025.

Note: The review of Veteran information was a humbling experience. Extreme gratitude was experienced for Oneida Tribal member service in the United States Armed Forces. Undoubtedly there are countless stories of untold bravery and sacrifice, by our ancestors, contained with the confines of our cemeteries.

Project: "Root Causes of Stroke Risk Disparity in Wisconsin Native Americans"

The "Root Causes of Stroke Risk Disparity in Wisconsin Native Americans" is a partnership between the Oneida Comprehensive Health Division (OCHD) and the University of Wisconsin-Madison Stroke Team (UWMST). The program was funded as a University of Wisconsin-Madison Chancellor's Grant. Having found significant stroke risk factors in the elders, it is important that we work with younger tribal members to decrease these risk factors before they become established in the young. This led to founding this second study along with the Oneida Health division. It is hoped that we will eventually work across all ages to establish tribal health principals

This project will enroll 100 participants between the ages of 35-55 years of age to reduce the risk of stroke and stroke risk factors in Native Americans. Participation will be 1 year in length with all participants completing a carotid ultrasound test, health and family history, cognitive test, and a blood draw at the beginning and end of the study. All participants will be studied and managed with standard medical care for stroke risk factors, receive education for how to modify stroke risk factors, and will be assigned to work with a certified wellness coach. During enrollment, all participants will meet with a wellness coach to discuss health and wellness topics of their choosing, which will help move them toward achieving their health goals. Participants will become knowledgeable about Oneida programs that address social support, diet, and exercise to modify stroke risk factors and stress.

To date, we have enrolled 82 participants and 73 participants have completed baseline studies. We expect to have enrollment completed for this study by November 2024, with the beginning of the 1-year follow-up visits during that month as well.

Project: "Stroke Prevention in the Wisconsin Native American Population"

The "Stroke Prevention in the Wisconsin Native American Population" is a partnership between the Oneida Comprehensive Health Division (OCHD) and the University of Wisconsin-Madison Stroke Team (UWMST). The program works with the entire tribe to advance health and decrease stroke risk factors. We also work with individual elders to learn what works best at improving health.

To date, the OCHD-UWMST team has enrolled 120 participants. 119 participants completed baseline studies. Of the participants enrolled, 100 are high risk for stroke (51 receive intensive coaching, 49 randomized to standard health care and 19 are low risk controls), 94 are female and 25 are male. Of the current enrolled participants 79 have completed year 2 visits.

PROGRESS TO DATE

We will plan to have all 2-year follow-up appointments completed by November of 2024.

Both our 2024 Shapiro Scholars have completed their summer internship. Ms. Lada Nechval and Ms. Olivia Prescott have shared their research abstracts and posters with all co-authors (members of Oneida team and University of Wisconsin-Madison) and are awaiting approvals to finalize their project reports.

These project reports will be presented at the UW-Madison Medical Student Research Forum on November 25th, and the Research Days for both the Department of Neurological Surgery (October 11th) and Department of Medicine (April 2025). In addition, Ms. Olivia Prescott is seeking a path of distinction in Public Health, and she will be presenting the same abstract for that as well.

 - Oneida Business Committee Approved April 24, 2019 - *Resolution # 04-24-19-A*
 - PI: Carey Gleason, PhD – University of Wisconsin
 - Co-I: Sanjay Asthana, MD – University of Wisconsin

Overview: The Wisconsin Alzheimer's Disease Research Center's (ADRC) Inclusion of Under-Represented Groups (IURG) Core seeks to ensure that all groups benefit from science addressing Alzheimer's disease and related dementias (ADRD). Following principles of community engaged research, the Center sought to partner with minoritized communities to address ADRD. Specifically, the Center's IURG core: 1) established and supports an Alzheimer's Disease Community Advisory Board (CAB) in the Oneida Nation of Wisconsin, and 2) solicited feedback on what the community needed in order to respond to ADRD in their communities.

Activities: Oneida Alzheimer's CAB meets monthly with the aims of addressing ADRD-related community needs. The CAB is co-chaired by Ms. Terry Hetzel and Dr. Carey Gleason. Agenda cover standing topics including outreach/communication updates, research updates, clinic developments and other general announcements. CAB members have been invited to participate in national scientific meetings as stakeholders. In total, the CAB continues to serve as a partner for the UW Alzheimer's disease research program.  below for current membership list.

Funding Status: The IURG Core for the Wisconsin ADRC and affiliated research projects have provided support for stipends for CAB members. We received notice of our renewal on June 11, 2024. This funding is secure through 3/31/2029.

2. Indigenous Cultural Understanding of the Alzheimer’s Disease and Related Dementia Research and Engagement (ICARE) – Research Project

- Oneida Business Committee approved April 2019 (while grant was being prepared) *Resolution # 04-24-19-B*
 - PI: Kristen Jacklin, PhD - University of Minnesota
 - Co-PI: Carey Gleason, PhD – University of Wisconsin

Overview: The Indigenous Cultural Understandings of Alzheimer’s Disease and Related Dementia – Research and Engagement (ICARE) is a research project funded by the National Institutes of Health. This research is being conducted as a collaboration between the Memory Keepers Medical Discovery Team, University of Minnesota – Duluth, the Wisconsin Alzheimer’s Disease Research Center, and First Nation community members in Manitoulin Island, Ontario. The goal of the research is to improve the lives of American Indian/First Nations persons with Alzheimer’s disease and related dementias by investigating the impact of the disease on patients, families, and communities.

Activities: The team is working on the first aim of ICARE R01 – the NIH funded five-year extension of the ICARE R56 project. Community Researchers for the Oneida site have completed interviews with the first

two rounds of participants; healthy older adults and caregivers of loved ones with late stage dementia, respectively. The analysis team has generated Oneida specific preliminary findings for the healthy older adult data, and is currently preparing a presentation for community review. Participant recruitment has started for the next (and final) round of interviews, which will be conducted in pairs (dyads) consisting of (1) people who have mild or moderate stage dementia and (2) their caregivers.

Funding Status: Original project funded for 2 years (2019-2021) through R56 funding. Funding was renewed (ICARE R01). New project end date is 2/28/2026.

3. Addressing Alzheimer's Disease and Related Dementias Disparities: The American Indigenous Cognitive Assessment (AMICA) – Research Project

- Oneida Business Committee Approved October 28, 2020 – Received research authorization letter on Nov 4, 2020
 - PI: Kristen Jacklin, PhD - University of Minnesota
 - MPI: Carey Gleason, PhD – University of Wisconsin
 - MPI: Tassy Parker, PhD – University of New Mexico

Overview: The American Indigenous Cognitive Assessment (AMICA) Project tackles the significant dementia disparity that exists for Indigenous populations by determining the scalability of recently developed, culturally tailored, brief cognitive tests for dementia, for use with 3 diverse American Indian (AI) populations. Compared to the majority population, Indigenous rates of Alzheimer's disease and related dementias (ADRD) are approximately 3 times higher. This research will adapt and validate a collection of complementary Indigenous cognitive assessment tools developed in Canada and Australia for use among AI populations in the United States.

Activities: The Oneida Indigenous Knowledge Advisory Group (IKAG) is active and comprised of respected community members as recommended by Oneida Nation Longhouse and Community Advisory Board leadership. The Oneida IKAG continues to meet monthly. Most recently, the Oneida IKAG nominated two members to represent them at the National IKAG meeting, which took place September 9th-13th in Albuquerque, NM. This meeting included IKAG representatives from all partnering Tribal Communities (Oneida, WI; Albuquerque, NM and Red Lake, MN), and provided opportunities for knowledge exchange across the entire AMICA team.

The National IKAG has completed review and reached consensus on adaptations for the AMICA memory screening assessment tool. Next steps include reviewing and adapting physical, behavioral and mental health history questionnaires.

In early 2025, we are aiming to begin the second phase of the project. In this phase, we intend to pilot the newly adapted Toolkit and ensure that along with being culturally safe and appropriate, it is valid and reliable. We recently received Oneida CAB support for phase 2 and are beginning a request for a Business Committee Tribal Resolution.

Lastly, the AMICA team is pleased to present a poster based on IKAG recommendations entitled *Trusting the Process: Integrating Cultural Safety into Dementia Assessments with Indigenous Peoples* at this year's International Indigenous Dementia Network Conference: <https://www.iidrn.org/conference>.

Funding Status: Funded by NIH (AG074231). Start date 06/1/2022 through 05/31/2027.

4. **Oneida Helping Oneida Family Caregiving Study (OHO) – Research Project**

- Oneida Business Committee Approved October 28, 2020 - *Resolution # 10-28-20-C*
 - PIs: Mary F. Wyman, PhD and Carey Gleason, PhD – University of Wisconsin

Overview: The purpose of this project is to learn about factors influencing the use of community-based services by Oneida family caregivers of elders with memory loss. Family caregiving of elders is more common in Indigenous communities compared to other groups, but utilization of available services (e.g., caregiver education and support, financial help, respite) is low. The study entails a community-based survey of Oneida Nation of Wisconsin community members on family caregiving and service awareness and use (N=507, completed Spring 2021), followed by qualitative interviews with community members living on/near the Oneida reservation who are caregivers of elders with memory loss (N=10, completed Fall 2021). The research questions were developed with Oneida community partners (e.g., Aging & Disability Services; Dementia Care Specialist; Oneida Alzheimer's CAB) and tribal members were employed for the project. Research presentations and publications involve tribal partners in authorship.

Activities: Data analysis with community members, UW students, and the PIs is complete. Our focus is on continued dissemination of findings, which were shared via email with the Oneida BC and other leadership. This quarter, we presented to the community at SEOTS and at the National Gathering of American Indian Veterans in Naperville, IL. A UW medical student and enrolled Oneida member is developing supporting materials and presented a scientific poster on this community-based research partnership at a Caregiving conference in Pittsburgh, PA. To learn more, please review the OHO Community Report, available in electronic form at <https://uwmadison.box.com/v/OHO-Report-2024>.

Funding Status: Completed. Funded 2020-2021 by the University of Wisconsin-Madison ICTR/Collaborative Center for Health Equity (CCHE), under the Advancing Health Equity and Diversity (AHEAD) initiative.

5. **Wisconsin Alzheimer's Disease Research Center Community Engaged Recruitment (ADRC Clinical Core) – Research Project**

- Oneida Business Committee Approved September 28, 2022 - *Resolution # 09-28-22-A*

Overview: The Wisconsin ADRC's Clinical Core enrolls participants into a longitudinal, observational cohort study. Comprehensive data are collected every 1 to 2 years and include cognitive testing, physical examination, laboratory testing, and detailed lifestyle and clinical data. Sub-study data include Cerebrospinal fluid (CSF) and neuroimaging biomarkers, e.g. amyloid and tau markers of disease. These data are used widely by researchers at the Center. Typically, data are shared with national repositories focused on AD/DRD. Based on a goal of respecting data sovereignty, we are sequestering data and biological samples in Wisconsin. This is done so with the permission of NIH Center leaders, and will continue until recommendations/guidelines are established for researchers seeking to use data or samples from the national repositories to examine AD/DRD in individuals identifying as American Indian / Alaska Native (AI/AN).

Activities pertaining to enrollment/study visits: The Wisconsin ADRC recruitment of Oneida Nation participants is now fully operational. Since our presentation to the BC and approval of a resolution to recruit at the Oneida Nation (9/28/22), we have enrolled 22 new individuals identifying as AI/AN into our Center's Core Study. Altogether there are 91 individuals enrolled who identified their primary, secondary or tertiary race as AI/AN, as per the demographic questions of the ADRC. We did not collect Tribal

affiliation information from those identifying as AI/AN. To remedy this oversight, we are contacting all individuals to gather Tribal affiliation information.

Activities pertaining to data sovereignty: As of our last report, we noted that some biological samples were sent to the Biomarker Lab at our Center to NCRAD between October 1, 2022 (date of our approval by the BC) and April 3, 2023 (date of notification to sequester). Twenty samples were shared with the National Repository (NCRAD) during this period and are sequestered at NCRAD. This month Stephanic Steidel from NCRAD confirmed, “previously received AI/AN samples have been and remain sequestered [sic] pending confirmation on how these samples should be handled going forward based on tribes' decisions.”

Our overarching goal is that samples and data are not used in ways that are harmful to citizens of the Oneida Nation. We will provide an update in our next quarterly report of any breeches or deviations.

Funding Status: We recieved notice of our renewal on June 11, 2024. This funding is secure through 3/31/2029.
