Navigating the Oneida Nation Hunting Map (Mobile Version)

Prepared by the GIS Planning Department

Brandon R. Noll & Stephanie A. Skenandore

GIS/Planning

Goals

- To get users familiar with navigating through the mobile version of the Oneida Nation Hunting Map

- To have users understanding the various functions of the map

- To have users understanding how to accurately read and comprehend the map

ONEIDA

GIS/Planning

App Link & Legal Notice

- Click the link or scan the QR Code to access the map
 - https://arcg.is/0Sq59f0

- Upon entering the link, you will be greeted by this Legal Notice
  - This is important, so please read thoroughly
  - Once you are done reading, press enter

nation.maps.arcgis.com

Please be aware these maps are intended to be used for advisory purposes only. The maps are based on information that the Nation believes to be accurate and reliable. The Oneida Nation issues no warranties related to the maps and the user accepts the boundary information provided in the maps on an "as is" basis. By clicking on Enter below, you accept that all boundaries shown on this map are general representations and should not be relied upon for the purposes of legal documentation or property transactions. Should you need to precisely locate your property lines a professional land survey is required, which may be on file for inspection at Land Management. If you have any questions about the contents of the maps please contact the Oneida Nation GIS Department at Sskena10@oneidanation.org or Bnoll@oneidanation.org
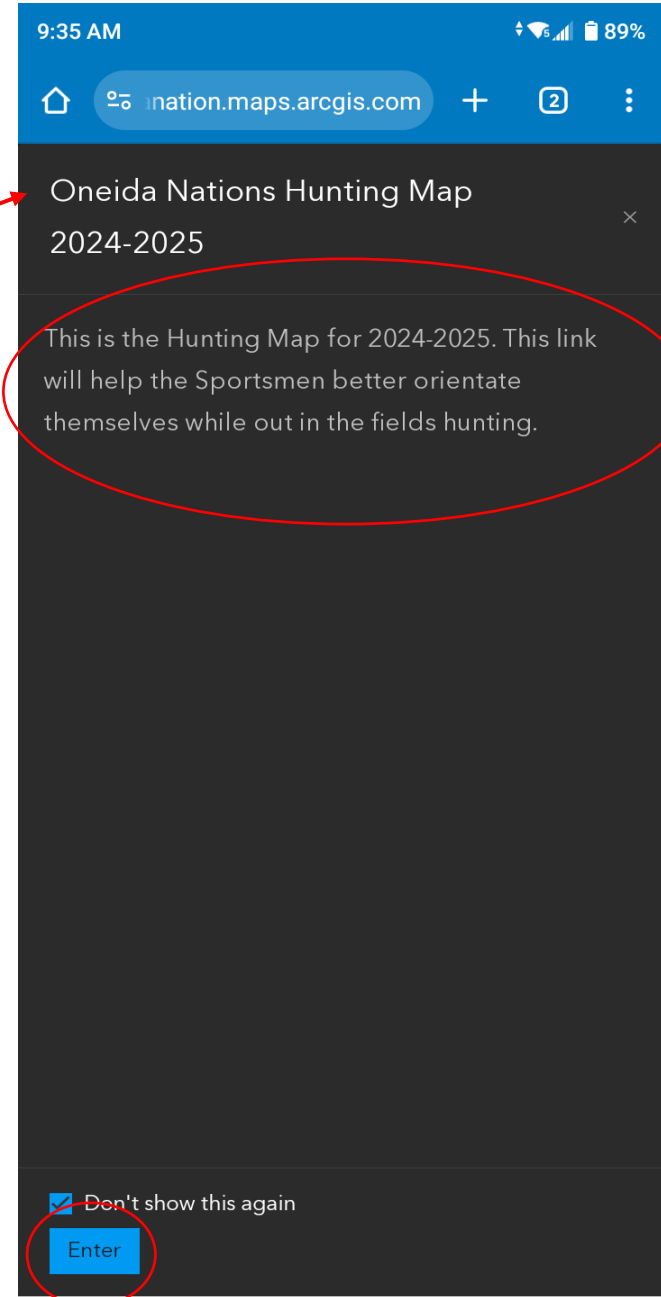

Enter

Getting Started

- This is the title of the map

- This notice is a description of the map you are about to view
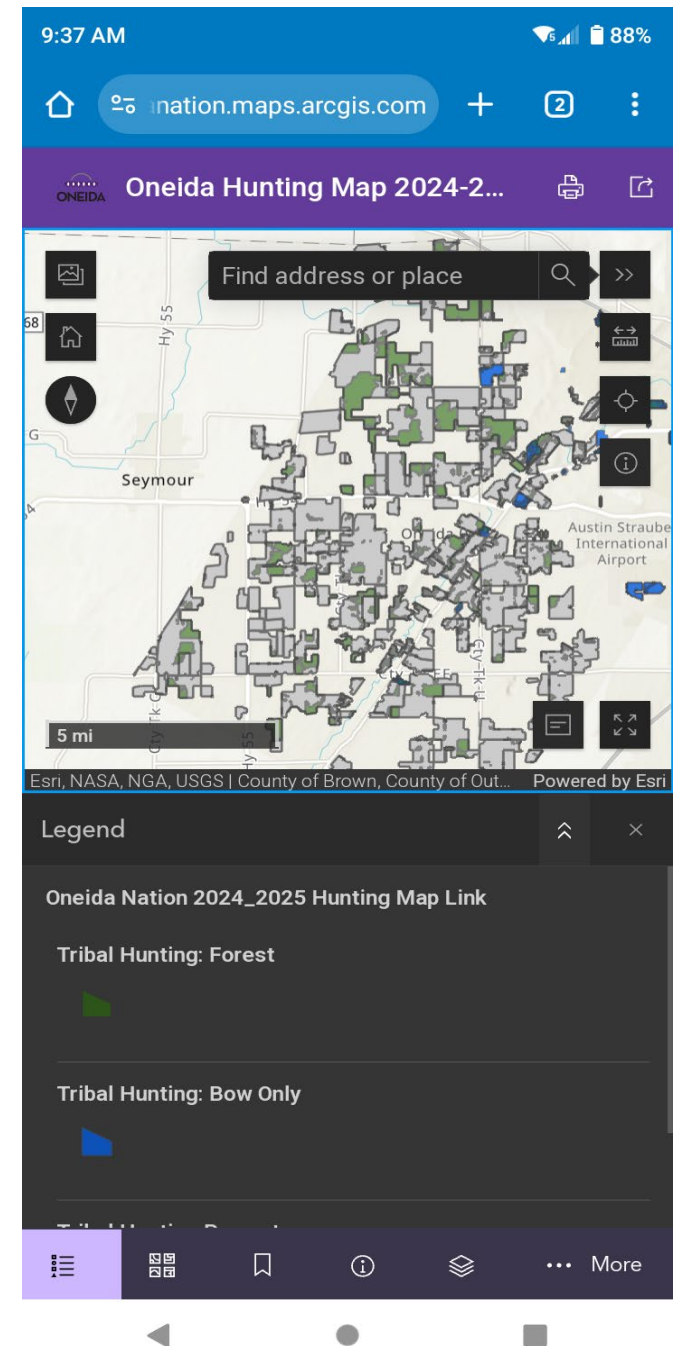

- Press enter to continue to the map

ONEIDA

GIS/Planning

Getting Started-The Base Map

- The base map will be the first thing shown upon opening the website

- If your map is completely dark, you may need to turn off some layers (Next Slide)
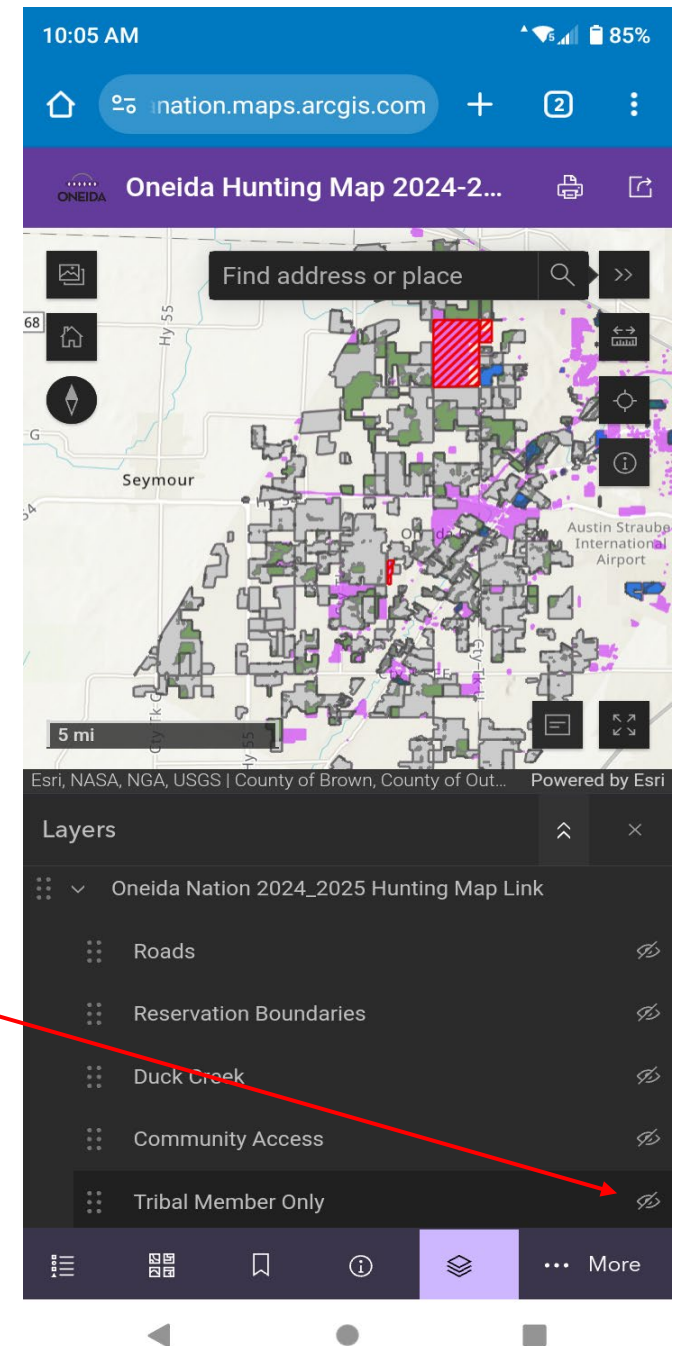

ONEIDA
GIS/Planning

Getting Started-The Base Map

- To turn off layers:
  - Click the Layers Tab on the bottom
  - Then Click the drop to arrow to view all layers

ONEIDA

GIS/Planning

Getting Started-The Base Map

- To turn off layers:
  - Click on individual layers to turn them on and off

 - This symbol, means the layer has been turned OFF

Exploring the Map

- You can move to different areas of the map by holding one finger down on the screen and moving it to a desired location
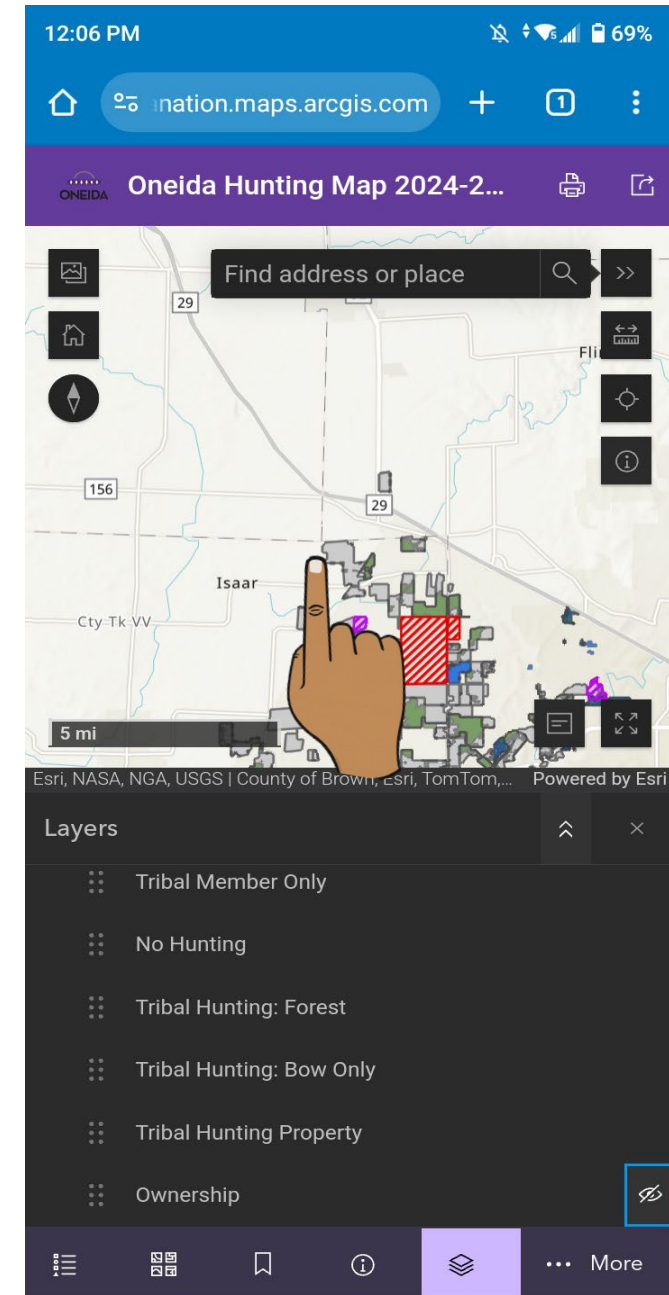

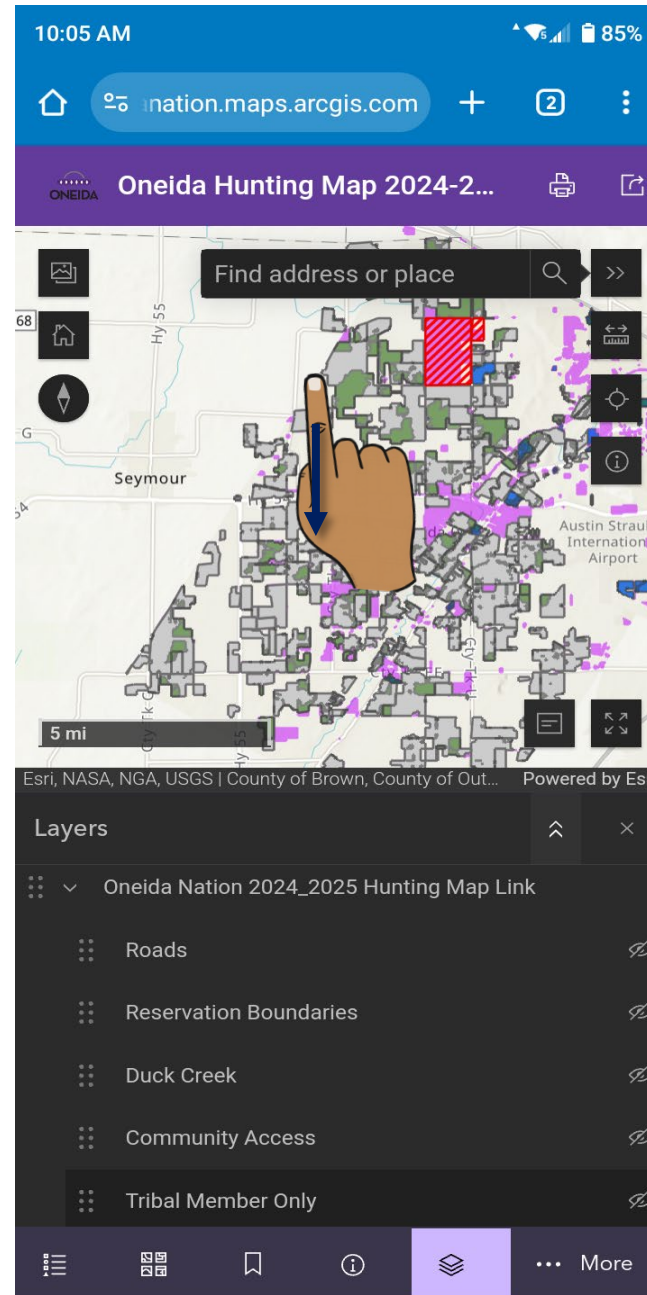

GIS/Planning

Exploring the Map

- You can zoom into the map by taking 2 fingers and pulling them away from each

GIS/Planning

Exploring the Map

- You can zoom out of the map by taking 2 fingers and bringing them towards each other

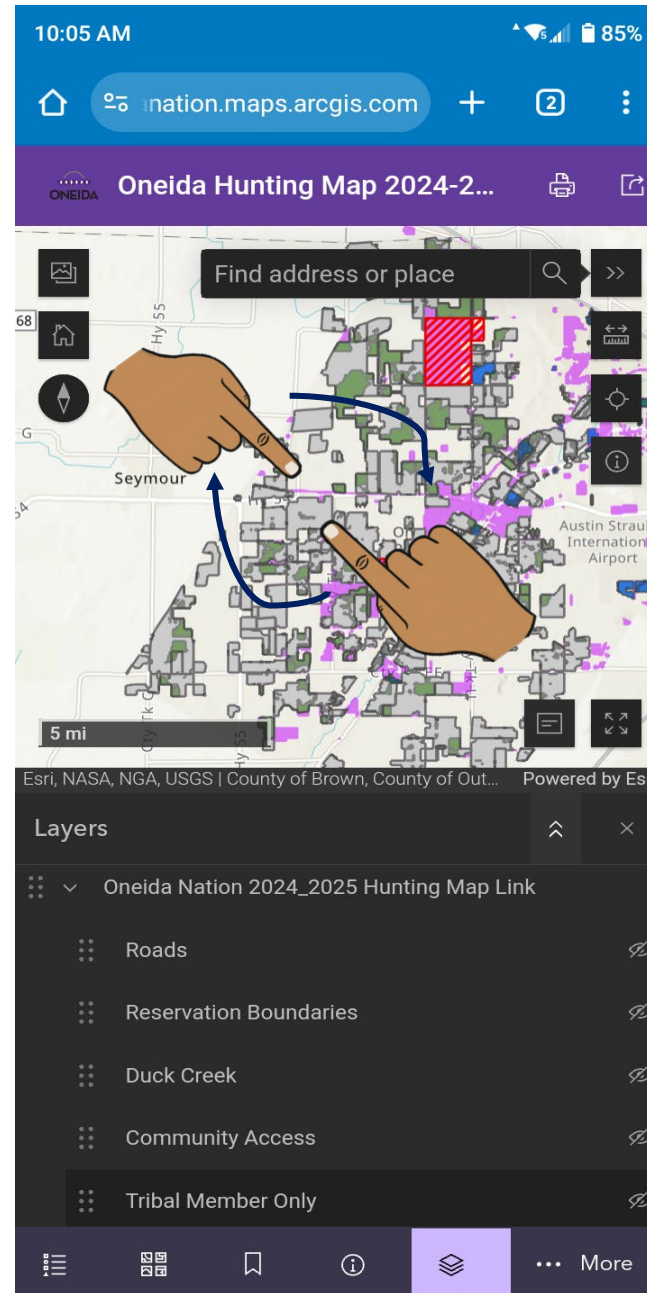

ONEIDA

GIS/Planning

Exploring the Map

- You can rotate the map by holding down 2 fingers and rotating the map in any direction

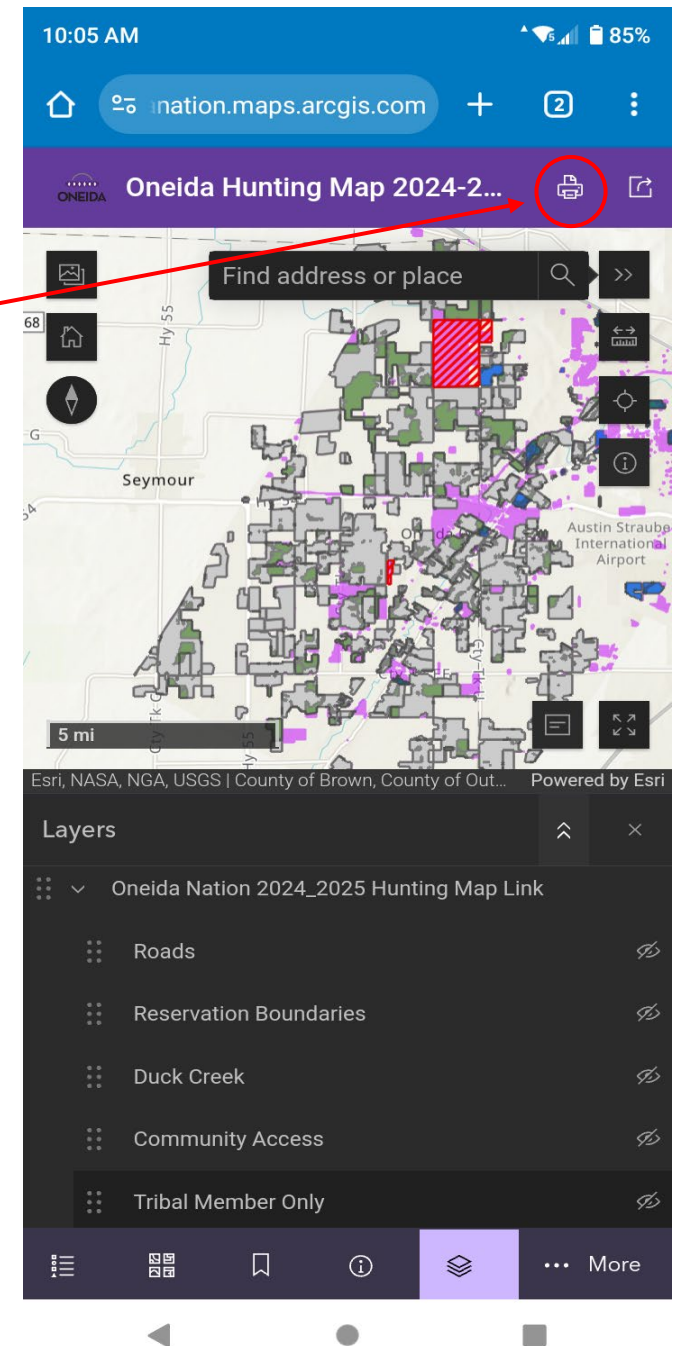

ONEIDA

Parts and Features of the Base Map

- Print or Export as a PDF

  - This feature allows users to create a PDF version of the map that is currently displayed on their phone

  - It can either be saved as a file on your phone, or printed to a connected printer
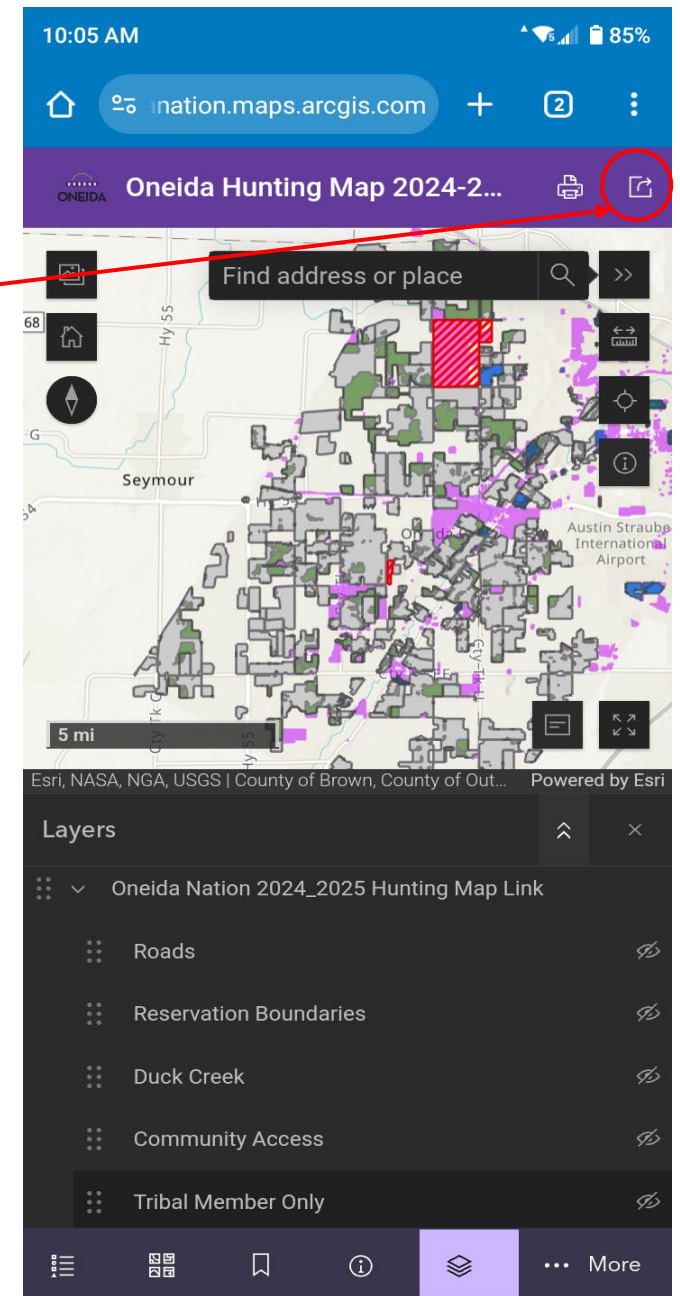

ONEIDA

GIS/Planning

Parts and Features of the Base Map

- Share

  - This feature allows users to share the current map with other people

  - This can be used to create a physical link (which can be copy and pasted), or it can upload the map directly to either Facebook, X (formally Twitter) or LinkedIn

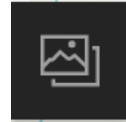

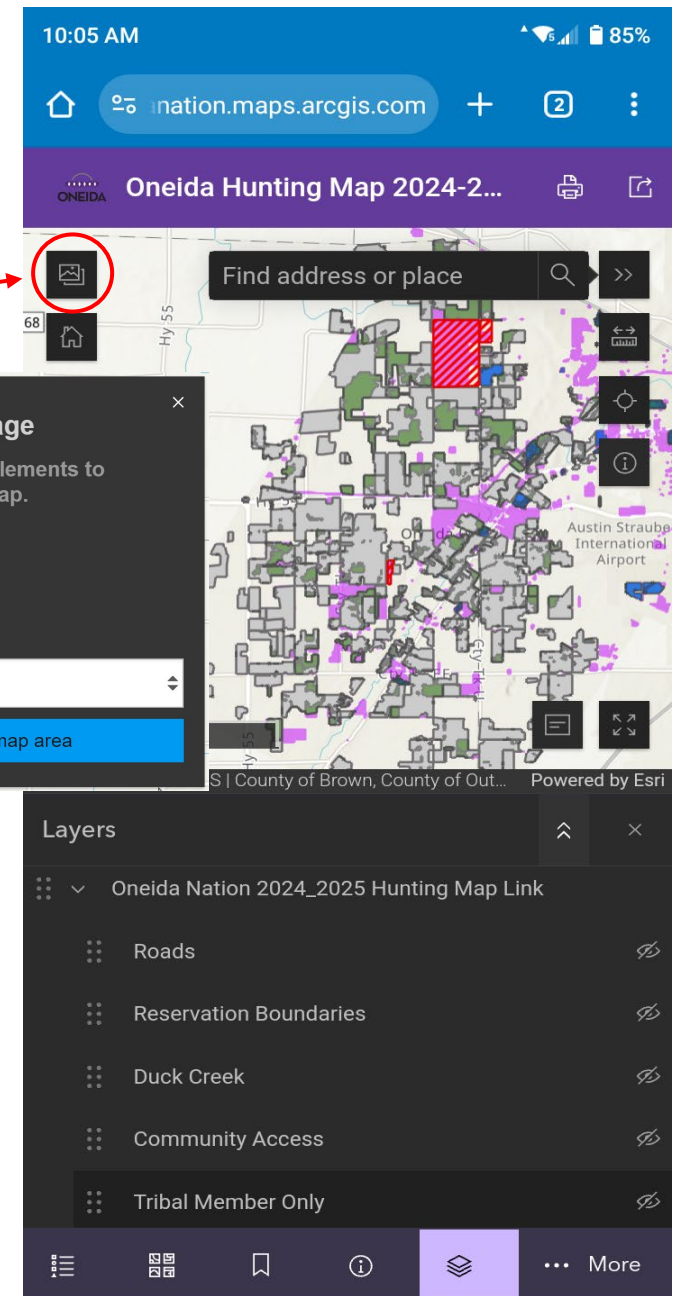

ONEIDA

GIS/Planning

Parts and Features of the Base Map

- Capture an Image

  - This feature allows users to take a specific portion of the map and save it as an image.

  - Click on "Set the map area" then hold and drag your finger across your screen in the area you want to capture

  - You can add and remove certain features, such as the map legend, by clicking the box next to the word

 - Once done, click "Download image" to save the image to your phone

GIS/Planning

Parts and Features of the Base Map

- Default map view

  - This feature resets the map to the original view it was at when you first opened the website

  - This feature is useful to reset your bearings if you zoomed in or out too far

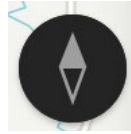

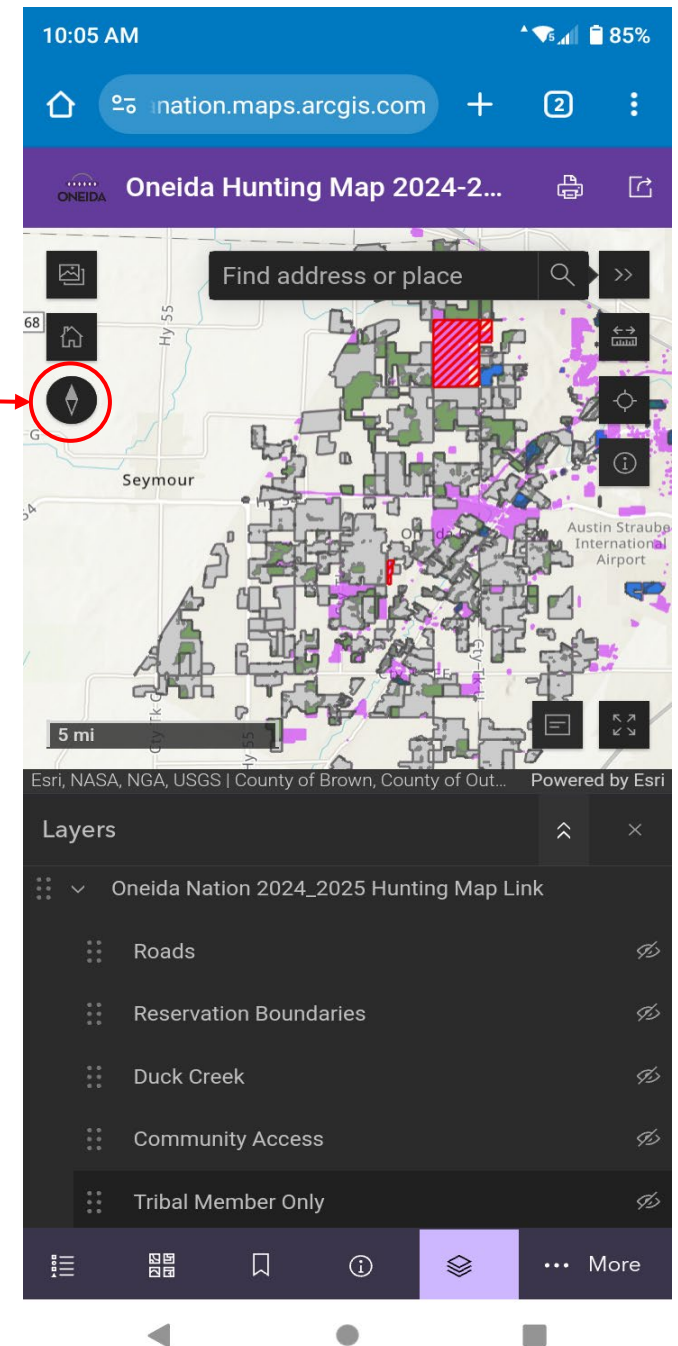

ONEIDA

GIS/Planning

Parts and Features of the Base Map

- Reset map orientation

  - This feature resets the map so that the orientation is facing North

 - Helpful to find your bearings if you rotated the map in any direction

# Parts and Features of the Base Map

- Map Scalebar

  - This feature provides a proportional measurement of the map shown

 - The distance automatically adjusts as you zoom in and out of the map.

ONEIDA
GIS/Planning

Parts and Features of the Base Map

- Find address or place

    | Find address or place | 🔍 |

    - This feature allows users to type in a specific address or name of a well-known place

    - The map will automatically zoom in to that address after clicking enter

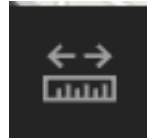

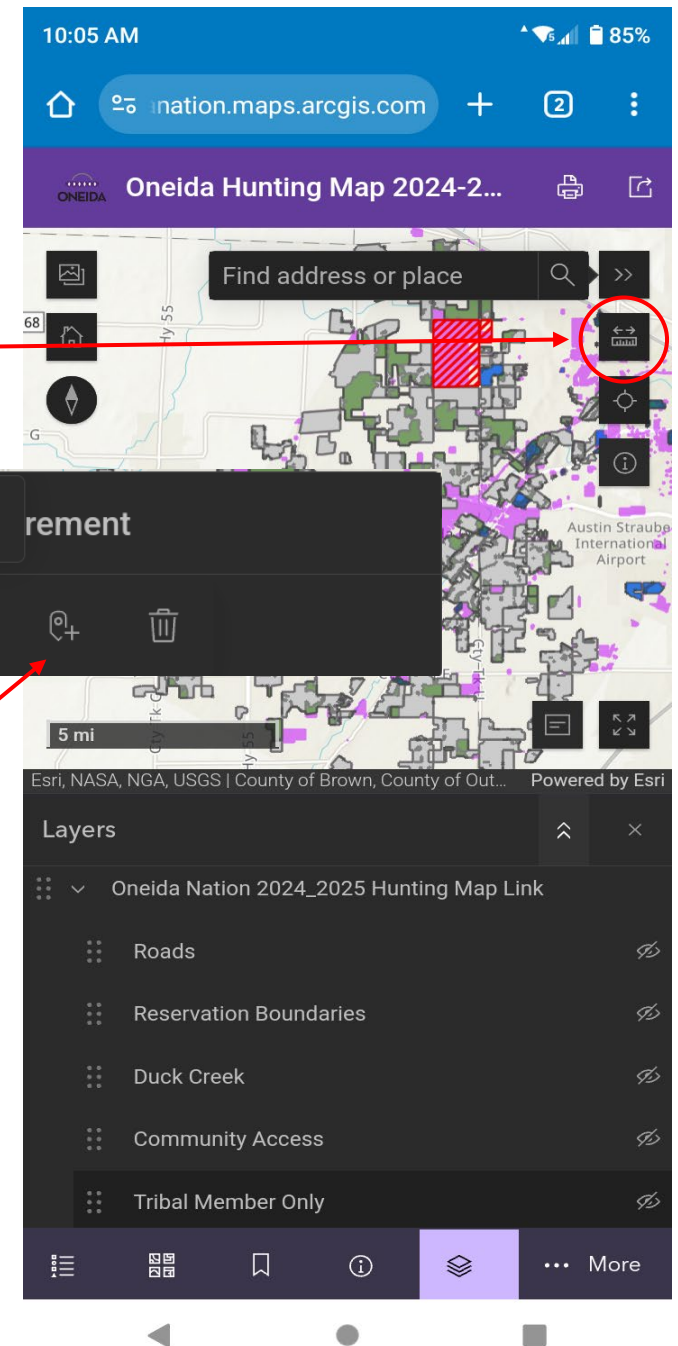

GIS/Planning

Parts and Features of the Base Map

- Open Measurement

  - This is a multi-option feature. It allows users to:
    - Measure the distance between 2 points
    - Measure the area of a polygon
    - Get an exact GPS coordinate of a location

ONEIDA

**GIS/Planning**

Parts and Features of the Base Map

- Find my location

  - This feature will find where your current location is, and zoom into that spot on the map

 - Must have location turned on in your phone settings

ONEIDA

GIS/Planning

Parts and Features of the Base Map

- Open introduction window

  - This feature will re-open the information home screen you saw after clicking on the map link

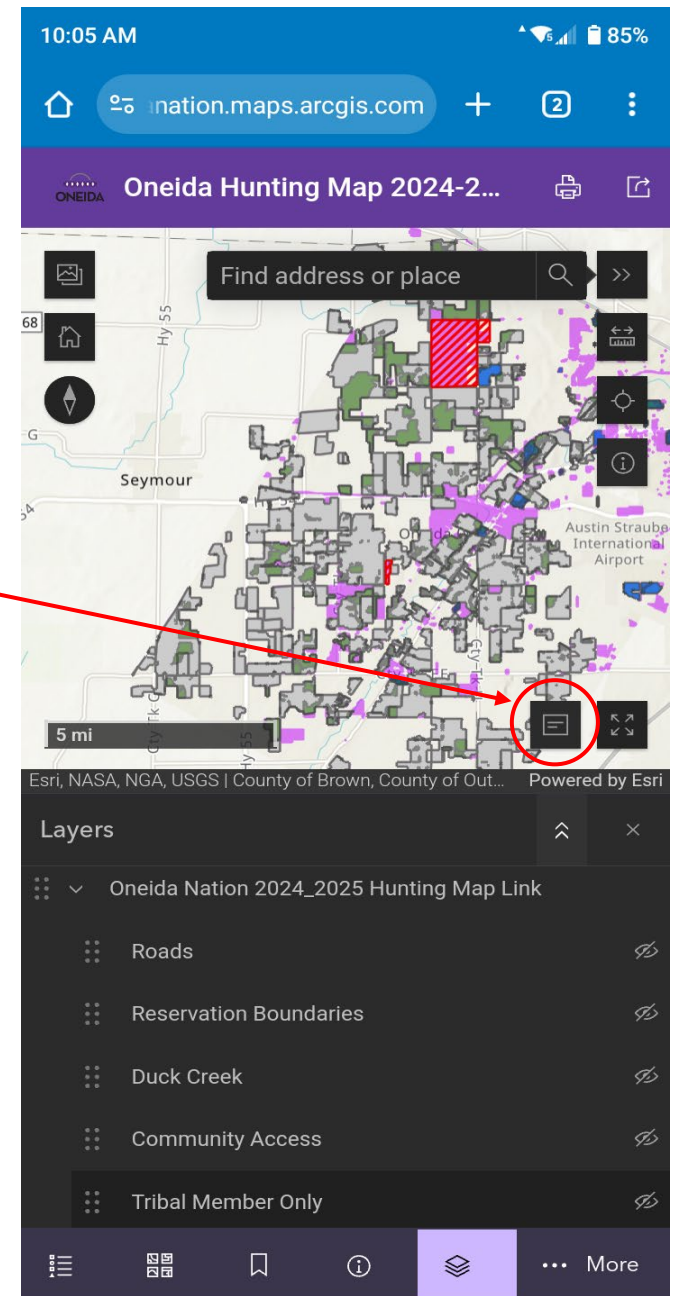

ONEIDA

GIS/Planning

Parts and Features of the Base Map

- Cover page

 - This feature will re-open the cover page home screen you saw immediatelyafter clicking on the map link

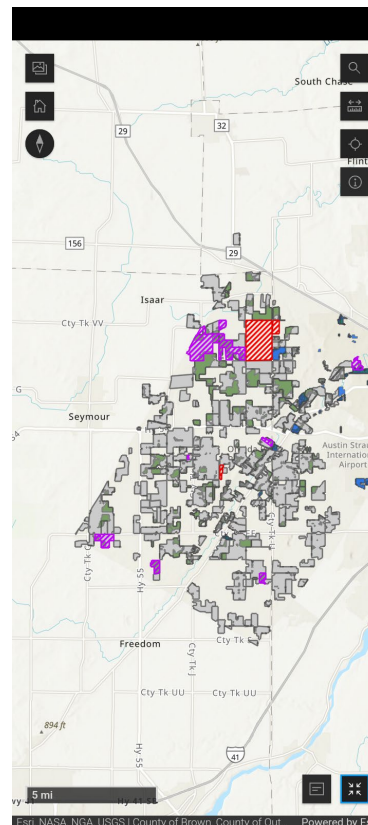

**GIS/Planning**

Parts and Features of the Base Map

- Enter fullscreen

  - This feature will fit the map to fill the entire area of your phone screen

ONEIDA

GIS/Planning

Parts and Features of the Base Map

- Legend

  - The legend informs the map reader on what each unique value on the map represents.

 - For example, an area marked with red dashes means "No Hunting"

ONEIDA

GIS/Planning

Parts and Features of the Base Map

- Basemap Gallery

  - This feature allows you to change the map imagery

  - For example, you can change the map background from classic map view to satellite imagery
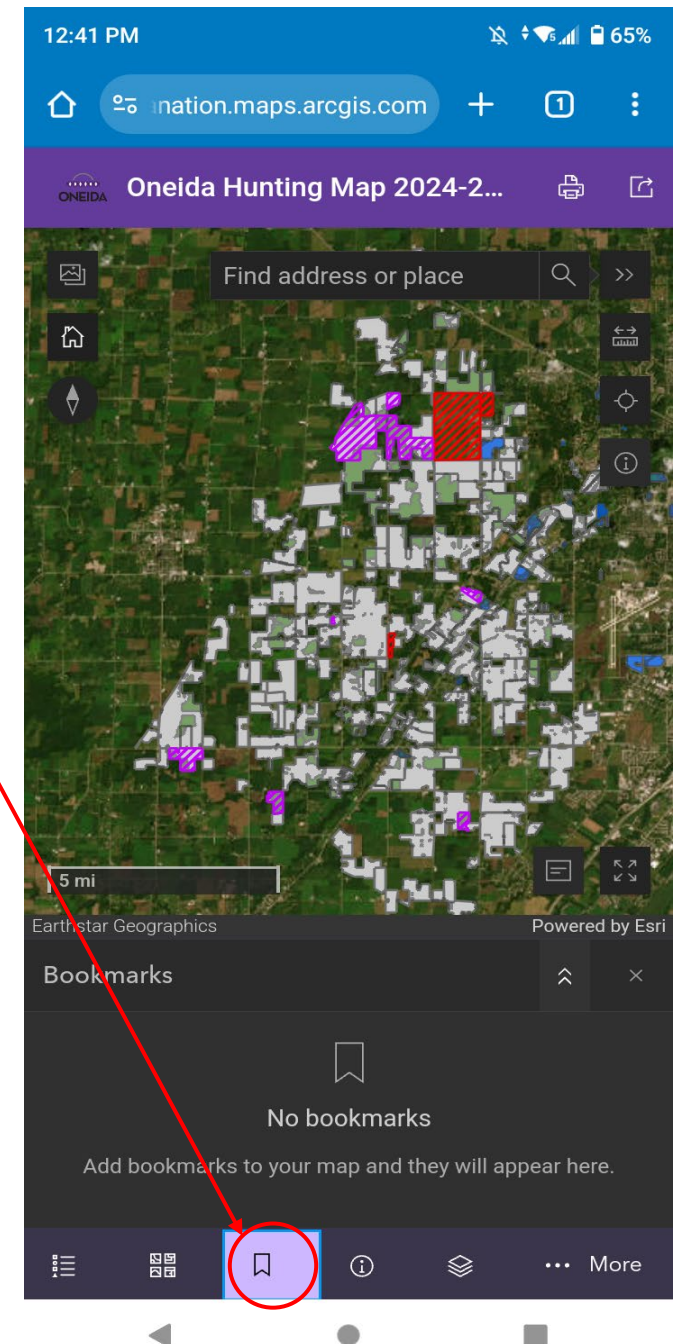

ONEIDA

GIS/Planning

Parts and Features of the Base Map

- Bookmarks

  - This tab is where all your map bookmarks can be found

  - Bookmarks are used to save a certain area on the map, and helps you re-find them later without having to start all over

 - This feature is still in development

ONEIDA

GIS/Planning
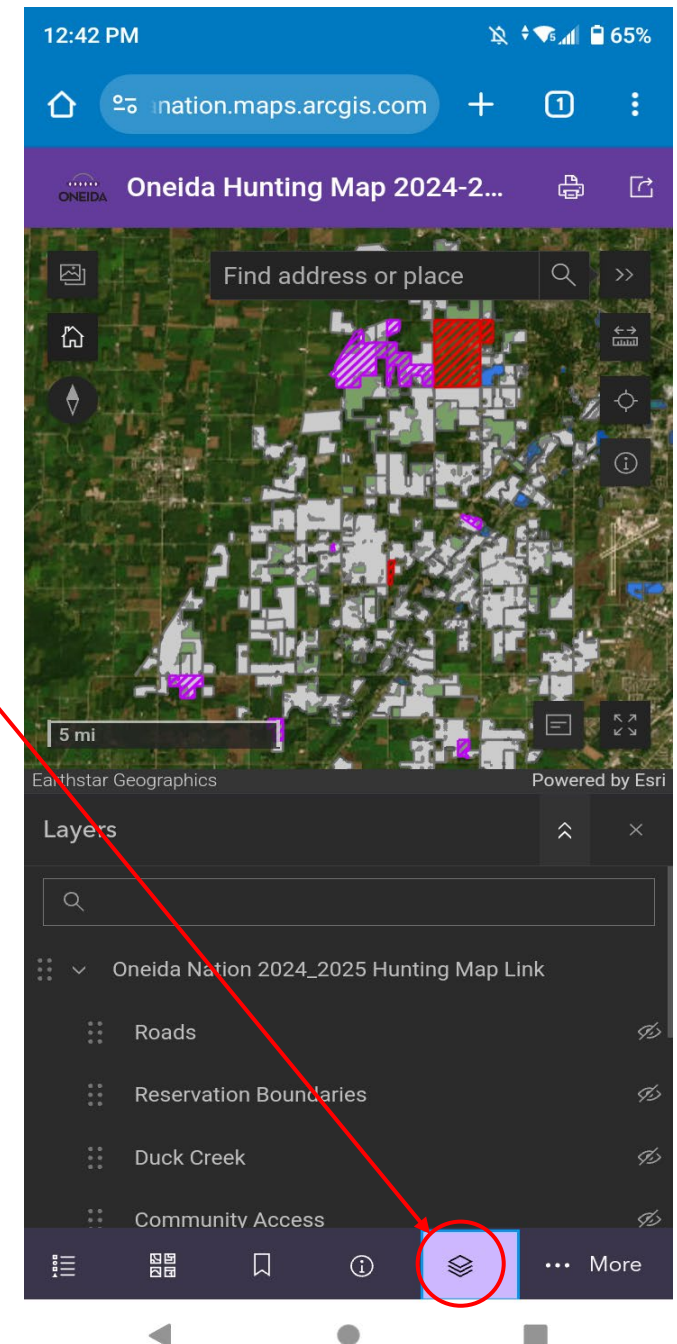

Parts and Features of the Base Map

- Details

  - This tab will show the map description WITHOUT bringing up the homescreen

Parts and Features of the Base Map

- Layers

  - This tab allows the user to customize what data they're able to see projected on the map

  - For example, if you only want to know where tribal bow hunting is allowed, you can turn off all layers except for "Tribal Hunting: Bow Only" to see only the areas where bow hunting is allowed

ONEIDA
