

Facilities Maintenance & Repairs

Project Description:

This project encompasses various maintenance and repair activities on Oneida Nation facilities and properties. These projects are funded under the Division of Public Works Building Maintenance & Repair budget.

Current Projects:

- **Parking Lot Repairs/Replacements**—DPW is currently evaluating the need for parking lot repairs and replacements at various locations to determine which areas will need work during the 2025 construction season.
- **Oneida Family Fitness Elevator**—Otis Elevator Company is currently under contract to replace the Family Fitness elevator. The materials have been ordered, but currently there is no anticipated start date for the work to begin. The custom, non-standard nature of this project has led to uncertainty of lead times for materials.
