TOUR INFORMATION

Date of Presentation:	Arrival Time:	Length of Visit:
Number in Group (include Chaperones):		Age/Grade of Group:

GENERAL INFORMATION

Our guided tours include an oral presentation of all exhibits and displays by cultural education staff and generally last 45-60 minutes. **Tours can be altered to accommodate audience special needs, age group and interests upon request. Please discuss such requests with the cultural education staff when scheduling your visit.**

To facilitate questions and to ensure your comfort and enjoyment it is our policy to divide groups of 20 or more. For groups not immediately touring the museum, we offer a selection of interactive activities. Our current options will be discussed with you prior to your visit.

Also, the materials contained in the Oneida Nation Museum have cultural significance and must be treated with respect. We ask that you discuss this with your students/group prior to your arrival.

If adding on activities this will be an additional 30 minutes - 1 hour on top of tour length.

GROUP INFORMATION

To better prepare the educator for the presentation we ask that you provide the following information

1. Will any member of the audience have special needs that the educator should plan for and how can we accommodate the needs?

2. Is there specific information that you wish our staff to elaborate on?

3. Additional comments or suggestions:
